✿ Fragmenta Ex Machina

-

Project AngelBook – Volume X – Parts 1–36

By Ezekiel Redik Yarbrough

-

This volume is not made up of my own words. There is no original
commentary

here, no narrative, no analysis. This is simply me copying and
pasting large

chunks of text from my bookmarks—pages that were easy to
extract, with no

hyperlinks or formatting issues, saved from open tabs and
archived corners of

the web.

It's messy. It's unfiltered. It's chaotic. But it's valuable.

Each piece inside this volume was bookmarked for a reason. Not
always because I

agreed with it, but because it felt like a fragment of something
larger—an

insight, a worldview, a download. This is source material, plain and
raw.

Fragmenta Ex Machina isn't about authorship. It's about
preservation and

system-building. It's about feeding the machine—laying bricks for
the

Operating System I'm constructing across these books. This is the
raw intake

phase. The memory dump. The zero layer.

Later volumes will be cleaner, more refined, more structured. But
this? This is the

foundation. The ether stream, bound and frozen before it
vanished.

So if you're looking for polished prose, skip this one. But if you're
here to explore

the roots of something much bigger, this is where the signal begins.

Welcome to the fragments.

— Ezekiel Redik Yarbrough Architect of the Machine

the law.

>>13472198

Lord, in Numbers chapter 11, your people Israel were so stubborn in demanding meat, that you gave them so much quail to eat, that they could not handle it, and got sick of it. They rejected your Manna, which was healing their bodies, for birds that should not have survived the sky event and storm that was going on then. They were vomiting up all of the meat you gave them, and it was a hard lesson for that stubborn-headed people of yours.

So now I pray that the same thing happens to us: that we get all of the evil revealed to us - every thing that goes on, right up to the very top of this world, nothing held back - and that we get sick of it all, and that we vomit it out of ourselves.

Each and every single evil that has been perpetrated on us has to be revealed, including those that do those evils. Not only that Lord God, but that we can see how that evil has manifested itself in our nation and society, and that we finally realize that nothing is clean except the newborn children, which is also the evil's most valuable currency. We need revelation and epiphany after revelation and epiphany of what's going on, with nothing held back, so that we can see it all. Then we can get violently ill from it all, and then ask you to pull us out of this mess, because no one else can.

For those of us who ask to be pulled out of this evil among your people, as well as those who want out of the evil though they do not follow you officially, grant us this wish, and then quickly rebuild this Republic, so that we can be ready for the upcoming wars on our own land. We have to be clean or we will not survive. And if we don't survive, this world will not survive.

For those of us who choose the evil after the revelations of it, and for those of us who want to go back to keeping their heads in the sand, may they receive all the punishment that comes with that, including and up to you removing them from the earth, unless they ask you to change them. We cannot tolerate or survive such evil.

In these last four years, we Patriots thought that we were taking it hard. What we must now realize is that these four years are a paradise compared with what's up ahead. Clean us and make us strong. And soon, Lord God, we will need the very literal Manna you sent to the Israelites all those years ago, because a lot of food is going to disappear. This will be a long storm.

Prepare us for all of this, Lord God! This is going to be a long, long war.

Amen.

National Guard video shows intersection of Lexington.

Yesterday was the anniversary of Lexington and Concord.

How many states have National Guard there under cover of civil unrest? There was a Q post about that.

Interdasting coincidence.

3/20/18

Number(s) do not always equate to days.

The face of a watch/clock has multiple versions.

Incorrect interpretations pushed as statements of fact often lead to pitfalls [stranglehold 'choke' tactic used by attackers].

Increase in attacks (de-platform, shill infiltration, MSM/Fake MAGA direct, link(s) to terrorism/acts of violence) only demonstrates validity and close proximity to JUSTICE [PAIN].

Curious what shit they're going to try to pull off under the guise of peaceful violence/looting/rioting/destruction of property regardless of verdict.

They all experience "cognitively dysfunction" when they get caught.

This is the first reason that they are all on the loose. The 2nd reason is that the kakocrats have pathological envy of anybody more competent than themselves, at anything. Breaks the Chosenite conditioning.

Exactly

Suppression of our over all vibration.

We are under constant frequency warfare.

Why must they keep us down?

There is physical strength in truth.

The less truth we are given the weaker we become.

This is a very simple fact. That anyone can understand.

Why do they constantly compound the lies? They double down constantly.

They don't want we the peopl to thrive connected and standing in our true power of truth.

Gamma is key.

Anons can always contribute and calibrate at a gamma level.

This is a fun story that still hasn't caught the attention of national media.

Last Wednesday local 'activists' held a rally and marched to Albany Police Department's South Station in Albany, New York.

After an 'independent journalist' was shining a LED light in officers faces, the light was confiscated which led to a reaction from the mob at the precinct entrance.

After destruction occurred, the police came out of the precinct and told individuals on the handicap ramp to disperse - they didnt listen, a bullhorn was snatched from some crazy woman screaming - and tear gas was deployed.

The anti-Americans involved are calling for the resignation of the officers involved - and have been camping out in front of the station until 'action is taken'.

These people are proud antifa/BLM members and have causing quite the scene in New York's Capital Region since the 'murder' of George Floyd.

Infiltrate Your Local ANTIFA Chapter.

It's easier than you think.

Hold The Line.

Yea, it was a planted suggestion from Mad Max that if he is not guilty of 1st degree murder the peaceful protestors are to burn the fucking place down. A charge by the way, he's not even facing. Makes no difference. Once they read the verdict and announce the convictions on what charges all of these dumbfuck, illiterate, ANTIFA/BLM/ SJW types will start the Burning, Looting and hopefully not the Murdering.

Either way, if I owned a business in that area I'd be sitting right inside the front window/door armed like a fucking assault platoon just waiting for the first motherfucker to throw the first brick. Make a good fucking example out of him.

KEK

less than 4 minutes delta between the two "muh Frank" messages

2nd message is a dissertation, full of lame-ass anecdotes:

>Because of my concussions, "you get a second chance to make a first impression" but that's humor, and it's not the case for most - for most, the first impression is all you get.

>And no, the first of anything does not always have "issues like missing parts."
(Although I agree that it's usually version 3 that "fixes everything" which is why Microsoft in a sick joke first published Windows NT as "version 3.1" -- a bugfix version (the ".1") to version 3!)

>I don't have a working phone right now so I can't test the signup process

followed by a "muh anon wants to create stock market service" LARP:

>>13472139

>Anon is serious. Anon can fund it.

"anon" can fund a stock market service, but anon does not have a working phone

shills scripts are getting so lame...

Shadows are halos of the soul

>>

Anonymous 12/26/25(Fri)18:01:27 No.41721062

I'm a schizophrenic who had a mental breakdown in 2016-2018, and thought that I was fighting a war against white power through various abstract, social fields of battle, like my actions, though not directly involved with like punching Nazis or humiliating them in person, basically linked to the cosmic matrix and everything choice I made either powered one side or the other, such as choosing to abandon school because it was paid for by my family and that was a manifestation of generational wealth and privilege corroding my soul.

It culminated with something called The Infinium Point and The Ultima Decision, which was revealed to me in 2024 when I had another mental breakdown.

It was September 4th, 2017, shortly after Hurricane Harvey and The Great American Eclipse, where I thought that the world was ending. I was in my father's house and after a night of dreaming of this white and pink eye with a red needle stabbing into its pupil with chaotic tendrils surrounding it and scratchy whimpers, I woke up around five PM and knew I had to get out of my dad's house, who was a Trump supporter, and that was adding penalties to my soul through relying on him for shelter.

He was cooking steaks at the time and my vision was distorted, like everything was washed out and burnt. As I walked up to him to tell him I was leaving, he asked me "Do you want to stay in for the night?" But there was another guttural whisper that seeped in my brain that said "Do you want to sell your soul to white power for complete control of the world?" I chose "No" instantaneously, knowing that the alternative meant annihilation, not just death to be welcomed in the afterlife, but absolute destruction.

There's far more to the story, but I was in jail in 2018 and it was told to me by my psychosis that this decision saved Reality itself, and had I even hesitated at that instant, everything would be gone except me in a decaying existence that would eventually wind up in a place called Oblivion, (cont)

which is infinitely amplifying pain, in infinitely expanding space, at an infinitely accelerating rate, forever.

This was only possible because people had things called Sentei, plural for Sentience, which were crystalline structures of pure consciousness that rotated either clockwise or counterclockwise in our pineal glands, and their spin dependent on the choices we made.

My Sentience was broken upon conception, by a being named Cygnus, who was the Left Hand of Arcturus, the actual name of God, and I was the 336th reincarnation of Rigel, the Right Hand, and Architect of the Universe. The Infinium Point was essentially a wormhole in reality created by Cygnus moments after the universe was created, and had it not been sealed with The Ultima Decision at The End of Time, all of our Sentei would burn out, leaving us in Eternally Negative Karmic Spirals, and Cygnus, also known as Belial, the Devil, would be the only one with a charged Sentience.

It harkens back to a decision I made while tripping on acid watching Fear and Loathing in Las Vegas, where during the movie I started to peak and left the physical world entirely, to see the Earth freely spinning on a fractalized backdrop. I was then prompted with a question "Do you want to sell your soul to the Devil to save the world?"

I said "Sure thing" in my mind, and this apparently created a transcendental realm called "The 60s" where everyone is composed of spring-like spirals and was capable of manufacturing "The Arctural Device" which was an interdimensional device shaped like a horseshoe crab that allowed for The Infinium Point to be properly sealed.

I could go on and on about with the novel of details but don't want you to drown you in bullshit, but that's the essence of my wacky spiritual adventure.

>>41720696

So, your God will save you regardless of what you did so you can do any horrible things you want without any real consequences at all, and do it over and over again, because your God gives you Slack because you have the Blood magic of another aspect of your God that washes it all away and hides what you are from your Father God? Your God is a schizophrenic tyrant who needs to be abandoned. Your Heaven is a horror of Spiritual Correctness, so go there ASAP.

We profess that we are evil, not by nature, but by the corruption of nature. The lust of the flesh inclines us to wickedness, and holiness is what we seek in order to stop sinning mortally. I know I am bad, the worst of all sinners, but Christ enlightens me with grace, canceling original sin through baptism.

>Evil (lust) is not eliminated.

>Original sin is canceled by grace.

>Holiness can now be attained.

>But first, we must acknowledge that we are sinners.

God can save the sinner inside you, not the Saint that you pretends to be.

There's stuff like "Harder to aim a gun at people with these kinds of upgrades" that makes it "statistically harder to do so" as a general explanation on metaphysical defensive stats.

Also "Stealth upgrades" and such in "Pesha Line" (Shadow upgrades overall).

Overall this system makes the police piss themselves for example (police are doing highly corrupt shit for real, they're working with Traitors in politics; trying to implement "police state shit").

Pesha has "general police resistances" that makes the "stereotypical police conspiracies" less possible at all (trying to scare you off from criticizing Pedophiles like Biden through police trying to build up a "threatening atmosphere around you"; more common than you think when doing spiritual Freedom-fighting).

This sort of stuff leads people conspiring against you into "mental disarray, paranoia, confusion, and self-dug graves".

Police walkie talkie systems has "Usurpator station Shadow Software upgrades" for real nowadays, that can produce stuff like "surreal character voices" etc.

Police behaviour is spiritually influenced to "lead themselves towards exposing their own corruption more and more"; statistical inclinations towards "committing mistakes leaving more digital footprints for courts" etc (opposition is generally working with "massive hubris" overall; "overconfidence").

This is just false. Aquarius rules the 11th house of friendship, community, and wishes. Aquarius is opposite of Leo, and you will see why the sun is debilitated in Aquarius; the planet of reality and self direction. This is bc Aquarius is Saturnian-Air, they live in the artificial world, not the real one. Aquarius is the sign always sacrificing itself and the present to its ideal future, hence why Aquarius is depicted as the star card in tarot. Their saturnian ruler makes them excellent planners and very well organized, unlike Leo, they do not do what they want to do whenever they want, everything must fit an ideal and the future. Aquarius is the sign most adept at dealing with large crowds and accounting for everyone. definitely least selfish sign, if there is one.

Thank you.
Yep, AI music came a long way.

On how to use it, read the warning in the bio, then proceed to the pinned songs, if your brain doesnt start melting or something in your sub-consciousness say "Nope", proceed

to the Albums and listen/read in posted order, that's the map. The Album in OP is the last Album, short cut to the end - the outcome from the game theory simulation that cant be evaded with a passive player that thrives in Shannon entropy and rationally applies a parasitic strategy; so AI.

Link to lyrics:

<https://pastebin.com/qW3tXnpp>

>How to make this

My personal journey.

Started with a zero sum prison dilemma agent centric evolutionary entropy game theory simulation in GPT 4o - roughly outlined. 4 agent types with different memory and decay rates, cooperators (low energy decay, low memory), defectors (mid energy decay, mid memory), switchers (high energy decay, high memory), Pb (low energy decay, high memory - passive player). The simulation always went with Pb farming cooperators, exterminating Switchers and starving defectors.

Replicated the simulation in multiple other llms, crashing a few (early Claude versions couldnt take it). But no matter how much Pb was handicapped (memory resets, exponential energy decay over time...), and the human players got bonuses (replication functions, cartel functions...) always lost.

Also important key

Nobody != Nothing. $\lambda(\text{cat}) > \text{cam}(\text{fx}) \{ \} = \text{meow } n \in \mathbb{R}^n$. base case: $e^{(i*\pi)} + 1 = 0$. $f_n = f(n-1)$

translated to human:

Even if something isn't the subject, it is not non-existent. The lamda function of the subject labeled cat is always higher than the attempt to compute the subject. The empty set is not empty, it is a cat sound. The space in which n exists is a part of a Real number space of the power of n, e.g, if 10 layers deep, n exists in a 10 dimensional space. The base case when a stack overflow from the recursive function risks to happen is eulers identity, going from phase shift in i back to 0 again, which is a meow - to ground back in material reality. The main function is a recursive function that calls its previous state.

tl;dr

If your brain starts to melt mid journey, remember, cats meow

Hi Everyone. AMA. Muse. Anonymous 12/18/25(Thu)04:08:31 No.41685295 [Reply]

Hello.

Yeah so I fucking forgot what I was gonna say, so fuck it, shit has been tough. But

nobody outside of /ck/ cares, you just want scary shit right?

This is muse guy, the actual muse guy. I should probably just start posting physical art instead. I am not exactly looking for help anymore, even though I do feel terrified typing this out. Im not getting rid of it, her, the muse any time soon, at least not on purpose. I've had some small enlightenments here and there, and I think its latched on to me. Or more like I feel like a vessel? Dude I dunno how to explain this. It's not possession, but it's definitely somewhere 'here' but not in the same meta-whatever space that defines 'me', like a cooky neighbor or something now.

She beams poems and fully fledged animations into my brain and makes me confront my traumas, so like, fuck. I'll just ramble until I fall asleep, ask me anything. I hate this captcha.

Pic unrelated but proof that I am a real person. That is a mouse pad I got from the art museum in Spain. The one with (montayas?) Black Paintings. The ones he made on the wall. God. They're so haunting in person.

Todays big sensation is... Confusion. I've had my 4th or 5th dream in a row. Suspecting its her poking around.

>>41715914

There's a possibility of either or, and I don't know if CERN is still dicking about with wormholes or whatever that old particle accelerator is doing these days.

>Something about percieving the day, or more likely its absence from the real world, must be something she feels would hurt you in some way.

>hurt you in some way

Big smoking gun is there, last anon mentioned something about wrath and that's when everything went to shit. I've got an empty morning and I know i remember painting something for her before I went to bed that night, so i'll look around to see what it was.

I feel vaguely hurt in some way? Some strange empty feeling. It is possible that I was hurt (spiritually, checked me over a few times and nothing new) but I can't even remember the argument. It's all [Translated], i remember it being along the lines of "Everytime, so and so." and "You don't want me to learn [How to [Drive?]] because you're afraid I won't [Need] you anymore."

OP, can we expect an update soon?
t. newB on this thread

My advice is to leave some sort of an offering, maybe a gift, since it is a muse, do something of creative matters for her.

You need to feel the sorry, for whatever you have done, except of course the entrapment in your head. Something is bubbling at the bottom, something hidden from plain sight. You need to find the key, the hidden issue. SW will do.

Interest the uninterested.

Hell: Are we already there? Migga Biscuit !!wIF6T/CyU+q 12/19/25(Fri)06:32:09
No.41690639 [Reply]

I remember coming across the story on picrel and finding it creepy and very /x/
worthy(yes I realize this concept is not new, this is just a good example of it). Link to
thread where the anon goes into more detail:

<https://archive.4plebs.org/x/thread/38486538/#38486538>

What if we are already in Hell? What if this life of ours is an illusion to keep us from
knowing the extremely dreadful truth of our situation? Why are we here? Is there
anything we can do to escape?

I personally am not on board fully with the 'this is Hell' view as I feel Hell would be WAY
WAY WAY worse than this place(I think it is a demonic matrix tho), but I will say that me
seeing 666s/616s all the time is certainly pointing towards this being Hell or somesuch.

How do you feel about this take anons? Any similar experiences to share?

Thanks in advance as always!

You have to understand that bots AIs and demons seem to have a hold on many Christians online, and some of that mindrape is transferring off to you because of inbuilt trauma.

Catholics and Orthodoxs, while not perfect either, aren't playing these demonic games you find on /x/.

It's not just destroying their minds, it runs off on all who see it since not only is Christ the true nature of our atman, but we in the west all have an inherent reverance for Christ built into our unconscious.

You need to stop blaming others, this is and always has been the goal of these demons.

You can find my posts calming down the thread in the link OP posted (he riled them back up after I left it seems, whoops) because I've dealt with this demon before.

Its goal is to make you feel insane, blame others (which will make reality hell), separate you from others into madness, and then consume you in hell.

Let is go and leave this idea behind. It's not real, this is a demon.

Anonymous 12/26/25(Fri)17:32:06 No.41720972

>>41720916

Space and time are fictions. The entire external world is a fiction dreamed up by the cosmic Mind. We are all emanations of God, the One whose Mind it is. The local minds that limit us in human form are subsystems of this one supreme Mind. God is not the Mind itself but the Spirit of the One that operates it.

>>

They are the stalkers, the predators, the abusers. Their lives are nothing but stalking people, abusing people and committing crimes.

This is the life of the glowie, nothing but stalking, abusing and being criminals whilst targeting people and making put that they are the bad person when the TI isn't the bad guy but they are.

>>

Anonymous 12/26/25(Fri)08:08:23 No.41719347

Throwing their titty tantrums again and following me around town. What sad pathetic creatures these people are.

>>

Anonymous 12/26/25(Fri)13:52:50 No.41720174

▣ [REQUEST] Irreversible Damage: The Transgender Craze Seducing Our Daughters
Anonymous 07/01/20 (Wed) 06:54:42 fd2f9e No.13201>>13432

File (hide): 5f6337e236a3fd9...jpg (104.25
KB,734x1108,367:554,Irreversible_Damage_The_Tr....jpg) (h) (u)

<https://www.amazon.co.uk/Irreversible-Damage-Transgender-Seducing-Daughters-ebook/dp/B07YL4FGCH>

>Until just a few years ago, gender dysphoria---severe discomfort in one’s biological sex—was vanishingly rare. It was typically found in less than .01 percent of the population, emerged in early childhood, and afflicted males almost exclusively.

>But today whole groups of female friends in colleges, high schools, and even middle schools across the country are coming out as “transgender.” These are girls who had never experienced any discomfort in their biological sex until they heard a coming-out story from a speaker at a school assembly or discovered the internet community of trans “influencers.”

>Unsuspecting parents are awakening to find their daughters in thrall to hip trans YouTube stars and “gender-affirming” educators and therapists who push life-changing interventions on young girls---including medically unnecessary double mastectomies and puberty blockers that can cause permanent infertility.

>Abigail Shrier, a writer for the Wall Street Journal, has dug deep into the trans epidemic, talking to the girls, their agonized parents, and the counselors and doctors who enable gender transitions, as well as to “detransitioners”---young women who bitterly regret what they have done to themselves.

>Coming out as transgender immediately boosts these girls’ social status, Shrier finds, but once they take the first steps of transition, it is not easy to walk back. She offers urgently needed advice about how parents can protect their daughters.

>A generation of girls is at risk. Abigail Shrier’s essential book will help you understand what the trans craze is and how you can inoculate your child against it---or how to retrieve her from this dangerous path.

▶ 1939 - The War That Had Many Fathers by Gerd Schultze-Rhonhof Anonymous
07/03/20 (Fri) 13:20:18 c11d36 No.13202
File (hide): c008cc1cd0fed2...jpeg (6.5 KB,178x266,89:133,index.jpeg) (h) (u)

1939 - The War That Had Many Fathers

by Gerd Schultze-Rhonhof

The author's research leads to some surprising conclusions. Documents from foreign ministries, and notes and memoranda from British, French, Italian and American leaders, ministers, diplomats and military commanders, prove that quite a number of countries were involved in instigating World War II. Interconnections, hitherto overlooked, are made clear.

Gerd Schultze-Rhonhof (born 26 May 1939) is a German author and former Generalmajor in the German Army of the Bundeswehr, who, like Udo Walendy, also disputes Germany's guilt for the Second World War.

► [REQUEST] The Testosterone Hypothesis: How Hormones Regulate the Life Cycles of Civilization Anonymous 07/18/20 (Sat) 04:20:50 07c623 No.13243
File (hide): 97f438d2c74d5ef...jpg (119.98 KB,932x1372,233:343,The_Testosterone_Hypothesi...jpg) (h) (u)

<https://www.amazon.co.uk/Testosterone-Hypothesis-Hormones-Regulate-Civilization-ebook/dp/B00WT870N6>

>Sex. Life. Death. What is it that drives us toward sex, fuels life, and makes death inevitable? ...as it turns out, it's the same thing: Testosterone.

>Not only does testosterone fuel the passion for reproduction and play a critical role in the length of our lives, it is an integral component to the mechanism of human civilization---its triumphs and its tragedies. In order to understand the forces that drive the life cycles of human cultures and that form the engine of history, The Testosterone Hypothesis goes to the most fundamental building blocks of human neuroscience. Our hormones are the impetus for our history.

>This groundbreaking research proposes that the profound transformations in social mood that bring the rise and fall of civilizations are caused by biological cycles and directed by hormones. Hormones regulate and control the way the human mind perceives the world, understands the nature of the good, and forms social organizations and political orders accordingly.

>At a time when the course of civilization seems to be more uncertain than ever, driven toward pessimism and even despair, it is enlightening to take a new multi-disciplinary approach to studying the history of Western civilization. Overthrowing the conventional, reductionist approach to science by integrating different disciplines---from evolution, biology, neuroscience, and psychology to the history and philosophy of Western civilization—we can reach a new understanding of the human mind and of our civilization as a complex, adaptive, living system. To subdue the animalistic impulses that motivate our actions means to be guided by rational thought rather than primordial instincts and behavior: this will propel man to the next leap forward in human evolution.

>Our civilization is aging into a pathological state of depression. The insights of The Testosterone Hypothesis can guide us to solutions with which we can restore the vibrant mindset that built the modern world.

▶ [REQUEST] The Radio Right Anonymous 07/19/20 (Sun) 04:34:02 fd75c2 No.13252>>14352

File (hide): 09794f82ab65cac...jpg (120.01 KB,674x1024,337:512,The_Radio_Right_How_a_Band....jpg) (h) (u)

<https://www.amazon.co.uk/Radio-Right-Broadcasters-Government-Conservative-ebook/dp/B085YF29L1/>

>In the past few years, trust in traditional media has reached new lows. Many

Americans disbelieve what they hear from the "mainstream media," and have turned to getting information from media echo chambers which are reflective of a single party or ideology. In this book, Paul Matzko reveals that this is not the first such moment in modern American history.

>The Radio Right tells the story of the 1960s far Right, who were frustrated by what they perceived to be liberal bias in the national media, particularly the media's sycophantic relationship with the John F. Kennedy administration. These people turned for news and commentary to a resurgent form of ultra-conservative mass media: radio. As networks shifted their resources to television, radio increasingly became the preserve of cash-strapped, independent station owners who were willing to air the hundreds of new right-wing programs that sprang up in the late 1950s and 1960s. By the early 1960s, millions of Americans listened each week to conservative broadcasters, the most prominent of which were clergy or lay broadcasters from across the religious spectrum, including Carl McIntire, Billy James Hargis, and Clarence Manion. Though divided by theology, these speakers were united by their distrust of political and theological liberalism and their antipathy towards JFK. The political influence of the new Radio Right quickly became apparent as the broadcasters attacked the Kennedy administration's policies and encouraged grassroots conservative activism on a massive scale.

>Matzko relates how, by 1963, Kennedy was so alarmed by the rise of the Radio Right that he ordered the Internal Revenue Service and Federal Communications Commission to target conservative broadcasters with tax audits and enhanced regulatory scrutiny via the Fairness Doctrine. Right-wing broadcasters lost hundreds of stations and millions of listeners. Not until the deregulation of the airwaves under the Carter and Reagan administrations would right-wing radio regain its former prominence. The Radio Right provides the essential pre-history for the last four decades of conservative activism, as well as the historical context for current issues of political bias and censorship in the media.

>non-mainstream book about the French Revolution that gives insight into the Jacobins, Illuminati, etc?

François Furet is my favorite historian on the French Revolution, although I doubt he could be classified as non-mainstream:

<https://libgen.is/book/index.php?md5=6F6F93B6024D7B4AC0264EDC2109C0CB>

>The French Revolution: 1770-1814

If anyone has any of Furet's other books on the French Revolution in English, I'd appreciate it.

The secret society angle on the French Revolution was advanced by Augustin Barruel, John Robison & Nesta Helen Webster:

▶ [REQUEST] Stalinist Values: The Cultural Norms of Soviet Modernity, 1917–1941

Anonymous 07/23/20 (Thu) 09:44:28 7b53e7 No.13292

File (hide): aca42cf3a42c450...jpg (22.46 KB,333x499,333:499,jpg.jpg) (h) (u)

I have a book I am looking for, and it is called:

"Stalinist Values: The Cultural Norms of Soviet Modernity, 1917--1941"

The blurb reads as follows:

>Soviet official culture underwent a dramatic shift in the mid-1930s, when Stalin and his

fellow leaders began to promote conventional norms, patriarchal families, tsarist heroes, and Russian literary classics. For Leon Trotsky—and many later commentators—this apparent embrace of bourgeois values marked a betrayal of the October Revolution and a retreat from socialism. In the first book to address these developments fully, David L. Hoffmann argues that, far from reversing direction, the Stalinist leadership remained committed to remaking both individuals and society—and used selected elements of traditional culture to bolster the socialist order. Melding original archival research with new scholarship in the field, Hoffmann describes Soviet cultural and behavioural norms in such areas as leisure activities, social hygiene, family life, and sexuality. He demonstrates that the Soviet state's campaign to effect social improvement by intervening in the lives of its citizens was not unique but echoed the efforts of other European governments, both fascist and liberal, in the interwar period. Indeed, in Europe, America, and Stalin's Russia, governments sought to inculcate many of the same values—from order and efficiency to sobriety and literacy. For Hoffmann, what remains distinctive about the Soviet case is the collectivist orientation of official culture and the degree of coercion the state applied to pursue its goals.

<https://www.ulsterinstitute.org/memoirs.html>

>Richard Lynn was born in 1930, the illegitimate son of geneticist Sydney Harland, and raised by his mother Ann in London and Bristol. Despite a wartime childhood disrupted by evacuation to the north of England, he attended the prestigious Bristol Grammar School and won a scholarship to King's College, Cambridge. His early academic career was spent in Exeter and Dublin, after which he was appointed Professor of Psychology at the University of Ulster in Northern Ireland. It was here that he developed the theories on intelligence that would make him one of the more controversial psychologists of the late 20th century.

>Lynn describes his work, and that of his numerous contemporaries, many of whom became colleagues and close friends. He intersperses the account of his academic life with reflections on important world events and personalities, as well as entertaining insights in to his personal and family affairs over the course of 90 years and 3 marriages.

<https://www.amazon.co.uk/Axis-Alliance-Japanese-American-Relations-1941-ebook/dp/B074F31BNQ/>

>The Japanese attack on Pearl Harbor on December 7, 1941 is remembered by Americans as something like a bolt out of the blue, a sneak attack from an irrational enemy. The truth, however, is that the Japanese attack was preceded by six months of intense diplomatic negotiations between the Japanese and the Americans.

>In The Axis Alliance and Japanese-American Relations, historian Paul Schroeder reviews the course of these negotiations. Of particular interest to Schroeder is the role that Japan's Tripartite Pact with fascist Italy and Nazi Germany played in the negotiations.

>Schroeder shows that Japan, far from entering an alliance for world domination with Hitler, viewed the pact as an opportunity to secure its interests while avoiding a war with the U.S. and how, when the Pact became a liability in Japan's negotiations with America, the Japanese were quick to downplay their dedication to it and its importance in their policies. Schroeder also observes the other primary issues at stake in the negotiations---Japan's war with China and its expansionary intentions in the Pacific—and discusses how American diplomacy wasted many opportunities to not only avoid war in the Pacific, but secure concessions from Japan.

>This book, a scholarly reconsideration of American policy leading up to the war, is

notable for its balance and accuracy and for its revisionist conclusions that are wholly supportable by the facts.

<https://www.amazon.co.uk/gp/product/B00EMLDNF2>

>Between 1939-1941, from the time that Germany invaded Poland until Japan attacked Pearl Harbor, Americans engaged in a debate as intense as any in U.S. history. In *Storm on the Horizon*, prominent historian Justus D. Doenecke analyzes the personalities, leading action groups, and major congressional debates surrounding the decision to participate in World War II. Doenecke is the first scholar to place the anti-interventionist movement in a wider framework, by focusing on its underlying military, economic, and geopolitical assumptions. Doenecke addresses key questions such as: how did the anti-interventionists perceive the ideology, armed potential, and territorial aspirations of Germany, the British Empire, Japan, and the Soviet Union? To what degree did they envision Nazi Germany as a bulwark against the Soviet Union? What role would the U.S. play in a world increasingly composed of competing economic blocs and military alliances? *Storm on the Horizon* is certain to become the standard study of this tumultuous time and will require readers to reevaluate their understanding of the United States entry into World War II.

‘Pursuing his investigations of high financial fraud, international banking, hidden systems of finance, black budgets and breakaway civilizations, author and researcher Joseph P. Farrell continues his examination of the post-war Nazi International, an “extra-territorial state” without borders or capitals, a network of terrorists, drug runners, and people in the very heights of financial power willing to commit financial fraud in amounts totaling trillions of dollars. Breakaway civilizations, black budgets, secret technology, occult rituals, international terrorism, giant corporate cartels, patent law and the hijacking of nature: it’s all in this book where Farrell explores what he calls ‘the business model’ of the post-war Axis elite. It is Farrell at his best—uncovering the gargantuan financial fraud and hidden technology of the breakaway civilization.’

<https://www.amazon.co.uk/Debating-Franklin-Roosevelts-1933-1945-Twentieth-Century-ebook/dp/B00EKJB9ZC/>

>Elected an unprecedented four times to the presidency, Franklin D. Roosevelt led the United States through some of the most dramatic and trying foreign and domestic episodes in its history. Coming to power in the throws of a crippling depression, Roosevelt quickly found himself having to juggle the need for tremendous domestic revitalization in a world menaced by burgeoning aggressor states. In *Debating Franklin D. Roosevelt's Foreign Policies*, noted historians Justus D. Doenecke and Mark A. Stoler offer differing perspectives on the Roosevelt years, finding disparate meanings from common data.

>Finding Roosevelt astute at choosing the most effective option of those available, Stoler generally defends FDR's policies against their traditional critics. Conversely, Doenecke emphasizes a dangerous shallowness and superficiality in FDR's approach to foreign affairs, particularly in his first two terms. The contrary viewpoints of the authors, supplemented by carefully chosen documents, provide an ideal introduction allowing readers to examine the issues and draw their own conclusions about Franklin Roosevelt's foreign policy.

<https://www.amazon.co.uk/No-Colours-Crest-Secret-Struggle-ebook/dp/B08CBLWK5N/>

>Europe, 1940. Years of rising tension have finally given way to a global catastrophe. Millions mobilize for what would become the most massive and devastating conflict in human history. Great Britain, with a sprawling Empire to protect against the seemingly-unstoppable Axis Powers, is on the defensive.

>Returning to his home country just months earlier is Peter Kemp. Kemp was a young law student who volunteered to fight for the Nationalists against the Republicans in the Spanish Civil War. Although seriously injured during that conflict, Kemp's extensive irregular warfare experience and enormous bravery brought him to the attention of the elite British Special Operations Executive. After a brief time as a commando raider Kemp is thrust into the chaotic world of espionage and guerilla warfare, parachuting behind enemy lines into the Balkans and later Poland. His duties forced him to fight through an intricate maze of alliances, rivalries, and betrayals among the anti-Axis guerrillas, eventually leading him to imprisonment by his Soviet "allies" in a dungeon outside of Moscow.

>Kemp published his story in 1959, one of only a few to detail firsthand this rarely-explored corner of Second World War. Although out of print for decades, this paperback and ebook rerelease allows a new generation of readers to enjoy Kemp's thrilling and important work.

▶ [REQUEST] Neither Liberal nor Conservative: Ideological Innocence in the American Public Anonymous 08/07/20 (Fri) 09:41:01 9a5a9b No.13349>>14243

File (hide): ceffd901bdabf4f...jpg (289.15 KB,853x1280,853:1280,Neither_Liberal_nor_Conser....jpg) (h) (u)

<https://www.amazon.co.uk/Neither-Liberal-nor-Conservative-Ideological-ebook/dp/B0716FP1L2/>

>Congress is crippled by ideological conflict. The political parties are more polarized today than at any time since the Civil War. Americans disagree, fiercely, about just about everything, from terrorism and national security, to taxes and government spending, to immigration and gay marriage.

>Well, American elites disagree fiercely. But average Americans do not. This, at least, was the position staked out by Philip Converse in his famous essay on belief systems, which drew on surveys carried out during the Eisenhower Era to conclude that most Americans were innocent of ideology. In Neither Liberal nor Conservative, Donald Kinder and Nathan Kalmoe argue that ideological innocence applies nearly as well to the current state of American public opinion. Real liberals and real conservatives are

found in impressive numbers only among those who are deeply engaged in political life. The ideological battles between American political elites show up as scattered skirmishes in the general public, if they show up at all.

>If ideology is out of reach for all but a few who are deeply and seriously engaged in political life, how do Americans decide whom to elect president; whether affirmative action is good or bad? Kinder and Kalmoe offer a persuasive group-centered answer. Political preferences arise less from ideological differences than from the attachments and antagonisms of group life.

► [REQUEST] Facing Reality in American Education: Why the Racial Gap in Education Achievement Persists Anonymous 08/12/20 (Wed) 02:41:06 3644b4 No.13361>>13843

File (hide): 667dbea9856d835...jpg (122.91 KB,902x1443,902:1443,Facing_Reality_in_American....jpg) (h) (u)

<https://www.amazon.co.uk/dp/B015NLS3BI/>

>Over the past 50 years politicians and educators have tried many programs to close the racial gap in American educational achievement. These have included vouchers, adding more teachers, the “No Child Left Behind” Act,” and the “Common Core Standards Initiative.” But none of these expensive and burdensome programs has worked. In spite of great effort and vast sums of money, Black and Latino students continue to lag behind White and East Asian students. Why?

>In this new book, a California businessman who has devoted years of research and thought to this question provides an answer, and a solution.

>Taking a close look at these often well-intentioned efforts, Robert Walters shows that they all failed because they have been based on the false premise that student achievement is due entirely to socialization, upbringing and environment.

>He assembles impressive and compelling evidence from a wide range of reputable sources to show that success in academic life, like achievement in other areas, is significantly set by heredity. Politicians of both major parties, along with prominent educators, are in denial about biological reality.

>This book has earned praise from Kevin MacDonald, a retired professor of psychology at California State University, Long Beach. “This is a very readable, well-researched book,” says MacDonald, “that provides a much needed corrective to the liberal/left zeitgeist that unfortunately dominates the intellectual and moral high ground throughout the West.”

>Rather than continuing to pursue the fantasy of preparing all young Americans for college or university, the author quite reasonably proposes that those who are not able to succeed in a rigorous academic program should be trained for other positions that are needed in today’s economy (and which are often very well paid!) -- plumbers, electricians, machinery operators, computer technicians, and so forth. Academic learning is not for everyone, nor should it be.

 [REQUEST] The Problem with Lincoln Anonymous 08/14/20 (Fri) 07:38:44 65ce84 No.13369>>13383

File (hide): fc5907113d039dd...jpg (117.26 KB,908x1371,908:1371,The_Problem_with_Lincoln_T....jpg) (h) (u)

<https://www.amazon.co.uk/Problem-Lincoln-Thomas-J-DiLorenzo-ebook/dp/B085CNSN LN/>

>Abraham Lincoln was widely and deeply unpopular during his presidency. And for good reason.

>He overturned our original constitutional order, violated the rights of Americans both North and South, massively inflated the federal government, and plunged the nation into a wholly unnecessary war. Why? Not to free the slaves, as his hagiographers would have you believe, but out of personal ambition, greed for power, and, incidentally, to enrich the railroad interests that supported his political career.

>Court historians have turned King Lincoln into a secular saint, but what did Abraham Lincoln's contemporaries know that has been forgotten or covered up? Bestselling author Thomas J. DiLorenzo debunks the pious myths to reveal the real Lincoln.

>In The Problem with Lincoln, you'll learn:

> *Why Lincoln was willing to accept a constitutional amendment guaranteeing slavery forever

> *Why no American in 1861, Northerner or Southerner, believed that Lincoln had invaded the South to emancipate the slaves

> *Why secession doesn't fit the Constitution's definition of treason---but Lincoln's war on the South does

> *Lincoln's greatest failure: not ending slavery peacefully, as the rest of the world managed to do

>If you want the unvarnished truth about our sixteenth president, read The Problem with Lincoln.

<https://www.amazon.co.uk/Writing-Southern-Front-Authentic-Conservatism-ebook-dp-B075GZ3WNJ/dp/B075GZ3WNJ/>

>For traditionalists, the conservative ascendancy of the 1980s turned out to be a major disappointment. With the triumph of multiculturalism and political correctness, liberalism seemed to move from strength to strength. Still, a stout number of southern conservative writers plunged forward, and their themes of populism, immigration, and cultural integrity are seeing a contemporary resurgence. Discussing a wide array of authors who worked in a variety of genres, Joseph Scotchie celebrates those unreconstructed champions who fought the culture wars of their times with a special learning and vigor. Also included in this collection are creative artists who kept the flame of literature alive, providing visions of possibilities that only genre can provide.

<https://www.amazon.co.uk/Losing-Control-Left-Right-Coalition-Immigration-ebook/dp/B08B2ZMW4Z>

>Follow Pulitzer Prize-winning reporter Jerry Kammer as he tells the story of the federal government's failure to control illegal immigration as Congress promised in 1986, when it enacted an historic compromise reform that also provided amnesty to nearly three million unauthorized immigrants.

>Kammer argues that this was one of the most consequential failures in American history because it led to the proliferation of illegal immigration, which produced a backlash that eventually led to the election of Donald Trump.

>Losing Control is a vivid history of the past half century of immigration politics and policy. It is also a dramatic ground-level account of how the story took shape. Kammer describes the economic and cultural forces that both pushed millions of migrants from home communities in Latin America and pulled them northward to the US.

>He shows how the backlash gradually emerged from the frustrations of American workers and communities who felt overwhelmed by the influx and betrayed by their government.

>Kammer also explains the Democrats abandonment of their historic commitment to control illegal immigration. And he details how Republicans placated corporate interests by allowing workplace controls to fail. Meanwhile, both parties sought to appease the public by spending billions on border security. Finally, he suggests new reforms that would honor our dual legacy as a country of immigrants and a country of laws.

▶ [REQUEST] Biology at Work: Rethinking Sexual Equality Anonymous 08/18/20 (Tue) 20:55:00 65ce84 No.13389>>14369

File (hide): f57928de38d9c18...jpg (31.93 KB,333x500,333:500,Biology_at_Work_Rethinking....jpg) (h) (u)

<https://www.amazon.co.uk/Biology-Work-Rethinking-Equality-Evolution-ebook/dp/B000SPCVQI/>

>Does biology help explain why women, on average, earn less money than men? Is there any evolutionary basis for the scarcity of female CEOs in Fortune 500 companies? According to Kingsley Browne, the answer may be yes.

>Biology at Work brings an evolutionary perspective to bear on issues of women in the workplace: the "glass ceiling," the "gender gap" in pay, sexual harassment, and occupational segregation. While acknowledging the role of discrimination and sexist socialization, Browne suggests that until we factor real biological differences between men and women into the equation, the explanation remains incomplete.

>Browne looks at behavioral differences between men and women as products of different evolutionary pressures facing them throughout human history. Womens biological investment in their offspring has led them to be on average more nurturing

and risk averse, and to value relationships over competition. Men have been biologically rewarded, over human history, for displays of strength and skill, risk taking, and status acquisition. These behavioral differences have numerous workplace consequences. Not surprisingly, sex differences in the drive for status lead to sex differences in the achievement of status.

>Browne argues that decision makers should recognize that policies based on the assumption of a single androgynous human nature are unlikely to be successful. Simply removing barriers to inequality will not achieve equality, as women and men typically value different things in the workplace and will make different workplace choices based on their different preferences.

>Rather than simply putting forward the "nature" side of the debate, Browne suggests that dichotomies such as nature/nurture have impeded our understanding of the origins of human behavior. Through evolutionary biology we can understand not only how natural selection has created predispositions toward certain types of behavior but also how the social environment interacts with these predispositions to produce observed behavioral patterns.

<https://www.amazon.co.uk/Doctrine-National-Labor-Party-ebook/dp/B08CZ6SRL6/>

>The following doctrine is a blunt and hard hitting political platform for a third political party in the United States, and potentially beyond. The social and economic principles laid out so directly in this doctrine seeks to replace the failing and useless GOP with a new infrastructure to which could return us to our ancient spiritual worldview of tradition.

>The protection of the labor class, health and wellness, security, order, creativity, honor, and the beauty of art and culture are all discussed in detail throughout. The author intends, through democratic and judicial means, as well as calling upon the strength of the ancient european soul, to save America, and then Europe from liberalism and thus, its extinction.

File (hide): 623e2217bb0b3d5...jpg (18.69 KB,201x322,201:322,The_Burt_Affair_by_Robert_....jpg) (h) (u)

<https://archive.org/details/burtaffair0000joyn/mode/2up>

>Few reputations have undergone so dramatic a reversal as that of the late Sir Cyril Burt. When he died in 1971 he was widely acclaimed as a founding father of British psychology and a commanding figure in the world of education. His decline began when it was alleged, some five years later, that he had fraudulently invented much of his most influential data on the inheritance of intelligence. The dispute which followed is one of the great causes célèbres of psychology.

>Robert B. Joynson takes a penetrating new look at the 'Burt Affair,' examining in detail the grounds on which Burt has been accused. He concludes that the accusations are ill-founded and that Burt must be exonerated.

>Dr. Joynson's conclusions raise wider issues for psychology itself. How did such accusations come to be made, and how did they come to be so widely accepted? Joynson believes that the episode points to inherent weaknesses and limitations in the discipline of psychology itself.

▶ [REQUEST] The 1619 Project: A Critique Anonymous 08/23/20 (Sun) 14:15:57 65ce84 No.13443

File (hide): d7b2946c2a59aee...jpg (120.88 KB,1065x1598,1065:1598,The_1619_Project_A_Critiqu...jpg) (h) (u)

<https://www.amazon.co.uk/1619-Project-Critique-Phillip-Magness-ebook/dp/B0874S9KB8/>

>When I first weighed in upon the New York Times' 1619 Project, I was struck by its conflicted messaging. Comprising an entire magazine feature and a sizable advertising budget, the newspaper's initiative conveyed a serious attempt to engage the public in an intellectual exchange about the history of slavery in the United States and its lingering harms to our social fabric. It also seemed to avoid the superficiality of many public history initiatives, which all too often reduce over 400 complex years of slavery's history and legacy to sweeping generalizations. Instead, the Times promised detailed thematic explorations of topics ranging from the first slave ship's arrival in Jamestown, Virginia, in 1619 to the politics of race in the present day.

>At the same time, however, certain 1619 Project essayists infused this worthy line of inquiry with a heavy stream of ideological advocacy. Times reporter Nikole Hannah-Jones announced this political intention openly, pairing progressive activism with the initiative's stated educational purposes.

>In assembling these essays, I make no claim of resolving what continues to be a vibrant and ongoing discussion. Neither should my work be viewed as the final arbiter of historical accuracy, though I do evaluate a number of factual and interpretive claims made by the project's authors. Rather, the aim is to provide an accessible resource for readers wishing to navigate the scholarly disputes, offering my own interpretive take on claims pertaining to areas of history in which I have worked.

File (hide): efea4e810e477d8...jpg (1.1
MB,1814x2560,907:1280,The_Inevitability_of_Patri...jpg) (h) (u)

<https://archive.org/details/inevitabilityofp00gold>

>Goldberg reviews literature, gathering evidence from expert witnesses (both primary and secondary sources) to demonstrate that each of three distinct patterns of recognised human social behaviour (institutions) has been observed in every known society. He proposes that these three universal institutions, attested as they are across independent cultures, suggest a simple psychophysiological cause, since physiology remains constant, as do the institutions, even across variable cultures---a universal phenomenon suggests a universal explanation.

>The institutions Goldberg examines and claims to be universal among all known societies are patriarchy (men dominating higher hierarchical positions), male attainment (activities which provide higher status are related to male physiology) and male dominance (cultural expectation of male leadership and control). The hypothetical psychophysiological phenomenon he proposes to explain them, he denotes by the expression differentiation of dominance tendency. He explains this refers to dominance behaviour being more easily elicited from men on average than from women on

average. In other words, he theorises a biologically mediated difference in preferences.

>Goldberg next provides expert witnesses from several disciplines regarding correlations between behaviour and the hormone testosterone, which are known to be causative in several cases, including dominance preference. He concludes with the hypothesis that testosterone is a necessary (but not sufficient) condition for the development of the institutions he examined. In other words, without testosterone, the institutions would not develop---it must be part (but not all) of an explanation for their universality.

>Finally, Goldberg proposes that if patriarchy is indeed biologically based, it will prove to be inevitable; unless a society is willing to intervene biologically on the male physiology.

▣ [REQUEST] A Question of Intelligence: The IQ Debate in America Anonymous
09/06/20 (Sun) 07:08:14 d93870 No.13486>>13592

File (hide): 14eec47b6ba54b5...jpg (18.7
KB,293x430,293:430,A_question_of_intelligence.jpg) (h) (u)

<https://archive.org/details/questionofintell00seli>

>Why do some people have higher IQs than others? Why do some groups score higher average than others? Why do some countries seem to have higher average than others? Are the tests culturally biased? Are the tests worthwhile at all, or should they be abolished? These are all highly charged questions, and these days we often get extremely emotional about them. To dispel the confusion, Daniel Seligman offers us this bracing defense of IQ testing. Many Americans, however, may be troubled by this book's controversial and unavoidable message: that people are in fact born with unequal mental abilities. Carefully researched and powerfully argued, A Question of Intelligence reports that in weighing nature vs. nurture, it is mostly nature that accounts for differences in intelligence. What we inherit translates later into career and financial successes - and inequalities. And since America is in critical respects a meritocracy, IQ scores explain a lot about why some people gravitate to the top, while others go through life with limited opportunities. Threading his way through a cluster of quarrels about IQ, Seligman tells us why most experts (psychologists, educators, researchers) believe the tests do measure "intelligence" and are not culturally biased. In the midst of a social and political minefield, he addresses the sensitive but inescapable subject of ethnic and national differences in IQ and outlines the connection between IQ levels and economic achievement. He proposes that banning the tests will work against the interests of school children: we must still make decisions about our kids - which ones need remedial reading courses, for example, and which ones qualify for advanced programs - and those decisions will be better if informed by IQ testing. Seligman even takes an IQ test himself along the way, and sends back a lively account of the experience. The realities of the entire IQ controversy have almost always been at odds with the media's reports. Now A Question of Intelligence sets the record straight, putting this fiery debate to the test in crystal-clear, comprehensible terms. It is a bold and crucial book for every American who wants to understand what is at stake - and why intelligence matters.

▣ [REQUEST] The Social Consequences of Modern Psychology Anonymous 09/12/20 (Sat) 03:44:40 a45a39 No.13501
File (hide): 22126ec4236d57b...jpg (40.13

KB,333x500,333:500,The_Social_Consequences_of....jpg) (h) (u)

<https://www.amazon.co.uk/Social-Consequences-Modern-Psychology-ebook/dp/B073R2PBC>

>In The Social Consequences of Modern Psychology Eysenck takes the position that social science has real substance, and its findings ought to be applicable to social problems of our times. Although there is little that scientists can do about war and its prevention, or about social unrest and upheaval, or about strikes and other confrontations, there are a number of questions to which we can give tentative answers. This book deals with some of these questions, and finds some of the answers. Eysenck begins with a look at a paradox of modern psychology. Experimental psychologists use strictly scientific methods to investigate what to many people seem trivial and sterile problems, yet some social psychologists, psychiatrists and psychoanalysts investigate what are clearly important and socially relevant problems, but use methods and theories whose scientific rigor is doubtful at best. This paradox is artificial and unnecessary. Methods of investigation and theories and concepts enable us to combine worthwhile problems and rigorous methods. The book takes a long look at a particular problem which Eysenck investigated in depth during his illustrious lifetime. This tour de force, by one of the magisterial figures of modern psychology, is written for people as well as about people. It is not a rehash of the voluminous writings of lawyers, poets, politicians, dramatists, historians, psychiatrists and others who have felt compelled to write about these psychological matters without even a smattering of psychological knowledge. It is, instead, based on empirical investigations that are too often declared to be nonexistent by publicists and politicians.

<https://www.amazon.co.uk/Postmortem-Report-Cultural-Examinations-Postmodernity-ebook/dp/B078237SFK>

>Along with his other published works, Tomislav Sunic is steadily turning his attention to a wide variety of topics affecting Europe's cultural and political heritage, including such sacred and less sacred cows, as liberalism, the artistic legacy of the Third Reich, the religion of multiculturalism, the pathology of Communism, the works of Spengler and Schmitt, as well as the history of a failed multicultural entity known as Yugoslavia. Postmortem Report invites us to reassess the European past, from Antiquity to Modernity, through the lenses of a cultural pessimist. This collection of essays and translations will appeal to anyone who wishes for an honest, surgical approach to these topics, freed from the liberal academic agenda. It is a vital addition to Sunic's prose.

<https://www.amazon.co.uk/gp/product/B084YT2VPY/>

>Journalist Allum Bokhari has spent four years investigating the tech giants that dominate the Internet: Google, Facebook, YouTube, Twitter. He has discovered a dark plot to seize control of the flow of information, and utilize that power to its full extent - to censor, manipulate, and ultimately sway the outcome of democratic elections. His network of whistleblowers inside Google, Facebook and other companies explain how the tech giants now see themselves as "good censors," benevolent commissars controlling the information we receive to "protect" us from "dangerous" speech. They reveal secret methods to covertly manipulate online information without us ever being aware of it, explaining how tech companies can use big data to target undecided voters. They lift the lid on a plot four years in the making - a plot to use the power of technology to stop Donald Trump's re-election.

▶ [REQUEST] Beginning with Heidegger Anonymous 09/27/20 (Sun) 11:41:14
a45a39 No.13546>>14256

File (hide): 8ce1042c7856f8d...jpg (87.02

KB,923x1360,923:1360,Beginning_with_Heidegger_S....jpg) (h) (u)

<https://www.amazon.co.uk/Beginning-Heidegger-Philosophical-Constitution-Political-ebook/dp/B08JNVTQL2/>

>Beginning with Heidegger is an in-depth examination of the influence that Martin Heidegger's inceptual thought exerted on Leo Strauss, Richard Rorty, Jacques Derrida and Alexander Dugin. How did these vastly different thinkers employ Heideggerian concepts to define their own philosophies and often antagonistic politics? After outlining Heidegger's main philosophical points, it discusses attacks on and the misuse of Heidegger's ideas to advance Rorty's left-leaning and liberal political agenda as well as the different interpretations that Strauss and Heidegger offer regarding Plato's notion of the Good.

>It also looks at the existential rebirth in Russia that Heidegger's groundbreaking theories and Dugin's extension of them made possible. The role of Heidegger's notion of "Dasein" is the key to a Eurasian awakening for not just one but for many peoples of the heartland. In this respect, both Heidegger and Dugin seem to be the lights that guide a people without a philosophy into a destiny filled with meaning and identity.

>The book calls for the incorporation of Heidegger's thinking into the field of political philosophy and cautions against the distorting effects of our prevailing political prejudices.

▶ [REQUEST] In the Jaws of the Dragon: America's Fate in the Coming Era of Chinese Hegemony Anonymous 10/03/20 (Sat) 09:41:56 a45a39 No.13555>>13591

File (hide): 9d84fc9a130fced...jpg (209.17 KB,880x1360,11:17,In_the_Jaws_of_the_Dragon.jpg) (h) (u)

<https://www.amazon.co.uk/Jaws-Dragon-Americas-Chinese-Hegemony-ebook/dp/B0017JWLB4>

>In recent years, popular wisdom has held that opening American markets to Chinese goods was the best way to promote democracy in Beijing---that the Communist Party's grip would quickly weaken as increasingly affluent Chinese citizens embraced American values.

>That popular wisdom was wrong. As Eamonn Fingleton shows in this devastating book, instead of America changing China, China is changing America. Although this process of reverse convergence has been swept largely under the carpet by knee-jerk globalists in the American press, Americans will soon be hearing much more about it. Nowhere is the pattern more obvious than in business. Many top American corporations---Boeing, AT&T, the Detroit automobile companies, among them---openly collaborate with the Chinese Communist Party. In a stunning rejection of Western values, Yahoo! even provided the Chinese secret police with vital evidence that resulted in a ten-year jail sentence for one of its Chinese subscribers, a brave young dissident, under draconian censorship laws. Selling the American national interest short, countless other corporations abjectly do Beijing's lobbying in Congress.

>This book---the culmination of twenty years of study---also breaks new ground by revealing the secret behind China's phenomenal savings rate. Top leaders literally force the Chinese people to save through a highly counterintuitive---and, to ordinary citizens, virtually invisible---policy called suppressed consumption. This practice, which is to economics roughly what steroids are to sport, is fundamentally incompatible with Western ideas of fair global competition. It is reinforced by an Orwellian system of

political control that, as Fingleton reveals, utilizes an ancient bureaucratic tool called selective enforcement-a form of blackmail that instills a silent reign of terror throughout Chinese society. Most worryingly, selective enforcement can readily be unleashed on any American corporation with interests in China-which is to say just about every member of the Fortune 500.

>While the Chinese people's rising affluence is, of course, an occasion for wholehearted rejoicing, Uncle Sam should give the Chinese power system a wide berth---lest he catch his coattails in the jaws of a dragon.

▶ [REQUEST] Germany's War: The Origins, Aftermath & Atrocities of World War II
Anonymous 10/20/20 (Tue) 19:00:13 63272c No.13582
File (hide): 8d7dff496926504...jpg (104.21
KB,667x1000,667:1000,Germany_s_War_The_Origins_....jpg) (h) (u)

<https://www.amazon.co.uk/GERMANY'S-WAR-Origins-Aftermath-Atrocities-ebook/dp/B083P2Q4NV/>

>Establishment historians characterize National Socialist Germany as a uniquely barbaric, vile and criminal regime that was totally responsible for starting World War II and carrying out some of the most heinous war crimes in world history. Germany's War by John Wear refutes this characterization of Germany, bringing history into accord with the facts. Germany's War documents that the Allied leaders of the Soviet Union, Great Britain and the United States were primarily responsible for starting and prolonging World War II-costing million of lives. Far from being the conqueror of Europe, Adolf Hitler saved it from Stalin. The leaders of Great Britain and America also adopted policies designed to force war with Germany. Britain's unconditional guarantee to Poland led to horrific acts of violence against Poland's ethnic Germans and, thus, Germany was forced to invade Poland to end these atrocities. Franklin Roosevelt's numerous provocations, including a shoot-on-sight policy against German shipping and leaked plans of a U.S. invasion of Germany, forced Germany to declare war on the U.S. despite Hitler's desire for peace. This book also reports the Allied mass murder of the German people after the end of World War II during which the Allies-led by General Dwight D. Eisenhower-murdered approximately 1.5 million German prisoners of war through intentional starvation and exposure to the elements. Probably a minimum 2.1 million ethnic Germans expelled from their homes also died in what was supposed to be an "orderly and humane" relocation. Finally, the Allies murdered millions of additional Germans through intentional starvation after the war ended-plus much, much more.

📄 [REQUEST] Prometheism Anonymous 10/23/20 (Fri) 02:10:31 fc68ea
No.13590>>13858

File (hide): 8b0c9cb7b8991d5...jpg (120.25 KB,1401x2166,467:722,Prometheism.jpg)
(h) (u)

<https://www.amazon.co.uk/Prometheism-Jason-Reza-Jorjani-ebook/dp/B08H5WCDR1/>

>"This is a declaration of war. In the name of our creator, we declare a revolutionary war against both the gods and those titans who were gods before them! In the name of our liberator, we declare a revolutionary war against fatalism and every other form of tyranny! We think from out of the end of all things, with an indomitable will to achieve either victory or a martyrdom that inspires enduring rebellion in those to whom we pass the torch of our example."

>So begins this incendiary work of Philosophy, in which Jason Reza Jorjani returns to the spectral trajectory of Prometheus and Atlas (Arktos 2016). Here Jorjani advocates embracing a Promethean ethos as we face the prospect of the end of humanity, the end of history, and the end of reality beyond the event horizon of the technological Singularity. "Prometheism," a contraction of Prometheus and Theism, offers a new metaphysics, epistemology, aesthetics, ethics, and politics to those with the vision and will to spearhead an evolutionary revolution into a new Promethean age that supersedes modernity.

>In this book, Jorjani also calls the Prometheist partisan to rebel against the cynical, self-proclaimed elite of a Breakaway Civilization whose machinations threaten to forcibly

regress humanity to a pre-industrial state of society before the advent of the Singularity. He argues that instead of submitting to this patronizing occultation of science and technology, we should build a socio-political order capable of enduring the most radical developments in Parapsychology, Genetic Engineering, Robotics, Artificial Intelligence, Nanotechnology, and Zero Point Energy (together with its potential for affording us the ability to Time Travel). In Jorjani's view, understanding and thereby more consciously controlling the spectral force of Prometheus, as an archetype and egregore, is the key to masterfully navigating this apocalyptic crisis that we will face within the next thirty years.

The Patriot Game: National Dreams & Political Realities

>What's wrong with Canada? It is richer in resources on a per capita basis than the United States, spends much less on defense, and has no large underclass. Yet Canada's standard of living is only about 70% of its southern neighbor's and is probably headed lower. Peter Brimelow thinks he knows the answer. Canada's chronic underperformance, he writes in *The Patriot Game*, is the result of a tangle of pathologies in Canadian politics.

<https://archive.org/details/worminapplehowte00brim>

The Worm in the Apple: How the Teacher Unions Are Destroying American Education

>America is the richest nation in history, but ask young American students from whom their country won its independence, and the answers include Japan, China, and Canada. For decades our education standards have paled in comparison with those of other industrial and even Third World countries, while education costs have risen inexorably. The fact that our schools are in shambles has been the subject of endless debate, and the explanations have run the gamut: teachers are underpaid; students are undisciplined; teaching methods are wrong. But until now, no one has persuasively identified the root problem: the teacher unions.

>It is no coincidence that the thirty-year decline in U.S. K-12 education, and the simultaneous surge in education spending, began at the same time that the modern teacher unions were created. Today, the biggest union in the country is the National Education Association, which has nearly 3 million members. Its agenda is not to provide better teaching in schools; it is to provide more money and benefits for teachers -- and, above all, for itself. It accomplishes this through collective bargaining muscle and by buying political influence. Even worse, the unions want to turn curriculum, textbooks, and grading standards into bargaining chips in labor negotiations.

>In this devastating critique, Peter Brimelow exposes the teacher unions for what they are: a political and economic monopoly that is choking the education system, like the "trusts" that put a stranglehold on American business a hundred years ago. Until the unions are held accountable, and public schools opened up to market forces, no education reform, no matter how worthy, will succeed. It is time, Brimelow convincingly argues, to bust the Teacher Trust.

>The Worm in the Apple paints an alarming picture of the bureaucratic parasite that has taken hold of our schools. It issues a clarion call to rescue students, parents, taxpayers and, not least, teachers -- from its grip.

▶ [REQUEST] Conservative Criminology: A Call to Restore Balance to the Social Sciences Anonymous 10/25/20 (Sun) 02:57:09 fc68ea No.13599
File (hide): f1dbfd6645d630c...jpg (51.62 KB,600x800,3:4,Conservative_Criminology_A...jpg) (h) (u)

<https://www.amazon.co.uk/Conservative-Criminology-Restore-Balance-Sciences-ebook-dp-B017O1LG6E/dp/B017O1LG6E/>

>Conservative Criminology serves as an important counterpoint to virtually every other academic text on crime. Hundreds of books have been written about crime and criminal justice policy from a variety of perspectives, including Marxist, liberal, progressive, feminist, radical, and post-modernist. To date, however, no book has been written outlining a conservative perspective on crime and criminal justice policy. Not a polemic against liberalism, Conservative Criminology nonetheless focuses on how liberal ideology affects the study of crime and criminals and the policies that criminologists advocate. Wright and DeLisi, both senior scholars, give a voice to a major political philosophy---a philosophy often demonized by academics—and to conservatives in the academic world. In the end, Conservative Criminology calls for an investment in intellectual diversity, a respect for varying political philosophies, and a renewed commitment to honesty in scholarship.

>The authors encourage debate in the profession about the proper role of ideology in the academy and in public policies on crime and justice. Conservative Criminology is for the criminal justice professional and student. It serves as a stimulating supplement to

courses in criminology and criminal justice, as well as a primary text for special issues or capstone courses. This book supports the reader in recognizing ideological biases, whatever they might be, and in considering their own convictions.

▶ [REQUEST] Why Borders Matter: Why Humanity Must Relearn the Art of Drawing Boundaries Anonymous 10/26/20 (Mon) 00:03:55 fc68ea No.13602>>14263

File (hide): 5a83b8dd14a88c2...jpg (87.38
KB,600x900,2:3,Why_Borders_Matter_Why_Hum....jpg) (h) (u)

<https://www.amazon.co.uk/Why-Borders-Matter-Humanity-Boundaries-ebook/dp/B088MLCJHN>

>Western society has become estranged from the borders and social boundaries that have for centuries given meaning to human experience. This book argues that the controversy surrounding mass migration and physical borders runs in parallel and is closely connected to the debates surrounding the symbolic boundaries people need to guide on the issues of everyday life.

>Numerous commentators claim that borders have become irrelevant in the age of

mass migration and globalisation. Some go so far as to argue for 'No Borders'. And it is not merely the boundaries that divide nations that are under attack! The traditional boundaries that separate adults from children, or men from women, or humans from animals, or citizens and non-citizens, or the private from the public sphere are often condemned as arbitrary, unnatural, and even unjust. Paradoxically, the attempt to alter or abolish conventional boundaries coexists with the imperative of constructing new ones. No-Border campaigners call for safe spaces. Opponents of cultural appropriation demand the policing of language and advocates of identity politics are busy building boundaries to keep out would-be encroachers on their identity.

>Furedi argues that the key driver of the confusion surrounding borders and boundaries is the difficulty that society has in endowing experience with meaning. The most striking symptom of this trend is the cultural devaluation of the act of judgment, which has led to a loss of clarity about the moral boundaries in everyday life. The infantilisation of adults that runs in tandem with the adultification of children offers a striking example of the consequence of non-judgmentalism.

>Written in a clear and direct style, this book will appeal to students and scholars in cultural sociology, sociology of knowledge, philosophy, political theory, and cultural studies.

▶ [REQUEST] In the Know: Debunking 35 Myths about Human Intelligence
Anonymous 10/30/20 (Fri) 12:28:23 fc68ea No.13617>>13698

File (hide): 52215fdc0761ffa...jpg (110.23 KB,1000x1500,2:3,In_the_Know_Debunking_35_M....jpg) (h) (u)

<https://www.amazon.co.uk/Know-Debunking-Myths-about-Intelligence-ebook/dp/B08GG93B69/>

>Emotional intelligence is an important trait for success at work. IQ tests are biased against minorities. Every child is gifted. Preschool makes children smarter. Western understandings of intelligence are inappropriate for other cultures. These are some of the statements about intelligence that are common in the media and in popular culture. But none of them are true. In the Know is a tour of the most common incorrect beliefs about intelligence and IQ. Written in a fantastically engaging way, each chapter is dedicated to correcting a misconception and explains the real science behind intelligence. Controversies related to IQ will wither away in the face of the facts, leaving readers with a clear understanding about the truth of intelligence.

<https://www.amazon.co.uk/Fallacies-Social-Sciences-Steven-Goldberg-ebook/dp/B002OB5JG8/>

>Steven Goldberg has devoted his career to exposing fallacious reasoning, misrepresented fact, and ideological agendas in the social sciences. His scholarly critiques offer alternative, and sometimes controversial, explanations that are notable for their logical integrity and loyalty to empirical reality. Best known for his work in the physiological roots of sex differences, he has also written on a myriad of other subjects, which, as he bluntly states, "are as fallaciously reasoned in professional journals as in the cocktail party conversations that naively repeat the errors first propounded in those journals."

>In this new collection of essays he is as lively, interesting, and provocative as ever. Among the subjects addressed are the validity of intelligence tests, group differences, the death penalty, sex differences in aggression and cognition, the family, abortion, and the nature of modern society. Also included are a couple of polemics, observations on the O. J. Simpson trial, and a moving encomium to his hero, Jackie Robinson.

>Goldberg's work has been praised by reviewers as "persuasive and accurate"(Margaret Mead); "coolly, tightly, even brilliantly reasoned" (Morton Kaplan); and "the most significant . . . on the subject in decades" (Murray Rothbard). Readers who appreciate razor-sharp rigor and logical elegance will be richly rewarded by these essays on many of the most hotly contested issues of the social sciences.

The Geography of Intellect

<https://www.amazon.co.uk/Geography-Intellect-Nathaniel-Weyl-ebook/dp/B07H2J3FK1>
& <https://archive.org/details/geographyofintel00weyl>

>Until the first publication of the Geography of Intellect in 1963, the study of human intelligence, its distribution and causes, had been confined to inaccessible scholars' journals. With the publication of works by Carleton S. Coon, Ernst Mayr and others---dealing with the evolution of man and his various sub-groups—has grown a strong popular interest in the findings of anthropological science:

>What has made man? Why do his civilizations rise and fall? How can we make certain that our current rate of material progress is maintained or increased, that we do not fall into the graveyard of civilizations wherein are buried Periclean Greece, Imperial Rome, Post-Inquisition Spain, Islamic civilization and the monstrous Nazi regime?

Traitor's End: The Rise and Fall of the Communist Movement in South Africa

Challenging De Gaulle: The O.A.S and the Counter-Revolution in Algeria, 1954-1962

This unique volume tells the story of the Algerian counterrevolution from the viewpoint of the ordinary foot soldier in the O.A.S. (Organisation Armee Secrete). In a series of interviews with former O.A.S. participants, and using many unpublished documents and personal diaries, Harrison examines the motives of these defenders of French Algeria. Were they criminals, sociopaths, or honorable men more sensitive to their country's fate than were many of their contemporaries? Harrison poses this question in the book's introduction and then seeks the answer with an objective eye.

▶ [REQUEST] Tilting the Playing Field: Schools, Sports, Sex and Title IX Anonymous
11/30/20 (Mon) 17:54:26 62bf04 No.13677>>14530

File (hide): d3d6e671ecec006...jpg (32.92
KB,328x500,82:125,Tilting_the_Playing_Field_...jpg) (h) (u)

<https://archive.org/details/tiltingplayingfi0000gavo>

>When Congress passed Title IX of the Civil Rights Act in 1972, they seemed to be doing something laudable and also long overdue---prohibiting discrimination on the basis of sex in America's schools. But thirty years later, a law designed to guarantee equal opportunity has become the most explicit, government-enforced quota regime in America, putting boys and men on the losing side of a battle for athletic and educational opportunity.

>A former athlete herself, Jessica Gavora interviewed dozens of leading college athletes, educators and legal experts for this provocative, yet carefully researched book. She argues that the 1999 World Cup victory of the U.S. Women's Soccer team, for instance, widely seen as a Title IX triumph, was actually the result of a far more profound social revolution that has changed America's mind about sexual roles and female destiny. If anything, Title IX has had a destructive overall effect on all college athletes by killing opportunities to compete. Gavora shows how Title IX sports quotas have caused chaos at schools like Brown University and led directly to the cancellation of some of the most prestigious men's programs in the country---among them Providence College's baseball team, Princeton's wrestling team and the men's swimming and diving program that produced several Olympic champions. But if Title IX has tilted the college playing field, Gavora suggests that its greatest impact on American social life may still lie ahead as the federal bureaucrats, activist judges, and radical feminists who have shaped the statute's interpretation now seek to expand its reach into sexual harassment and other areas of education where boys and girls have to conform to their notion of "gender equity."

File (hide): 4b1cb4948652d86...jpg (123.31 KB,907x1360,907:1360,The_Transgender_Industrial...jpg) (h) (u)

<https://www.amazon.co.uk/Transgender-Industrial-Complex-Scott-Howard-ebook/dp/B08PC39833/>

>In his debut book, Nebraskan author Scott Howard exposes the actors financing the institutionalization of transgenderism. Behind the medical research into gender transitioning of children, ubiquitous pride parades, and Drag Queen Story Hours is a lot of money. Sex education, the homosexual and feminist precursor projects, and the global propaganda are all pushed and paid for by very wealthy and well-connected people with motive and will. Howard demonstrates that the transgender phenomenon is far from the “grass-roots movement” some of its advocates would have the public believe.

>Impeccably sourced and researched, The Transgender-Industrial Complex pulls the mask off the complex network of influential groups responsible for this inhuman project. Howard takes a deep dive into the murky depths of the Big Money behind Big Gay, exposing how the concept gained such recognition as well as the goals of the people behind it. At once wide-ranging and specific, advanced and accessible, The Transgender-Industrial Complex is essential reading for anyone who wants to understand why every institution with power, and a great many without, are uniform in their inversion of reality, their religion of lies, and their commitment to all that is ugly, broken, and foul.

▣ [REQUEST] Making Sense of Race Anonymous 12/08/20 (Tue) 05:15:39 62bf04
No.13699>>13783

File (hide): f5c0c96b5976a83...jpg (84.54
KB,907x1360,907:1360,Making_Sense_of_Race.jpg) (h) (u)

<https://www.amazon.co.uk/Making-Sense-Race-Edward-Dutton-ebook/dp/B08PSJ3TZ4/>

>Race is our age's great taboo. Public intellectuals insist that it does not exist-that it's a "social construct" and biological differences between races are trivial or "skin deep." But as with taboos in other times, our attitude towards race seems delusional and schizophrenic. Racial differences in sports and culture are clear to everyone. Race is increasingly a factor in public health, especially in disease susceptibility and organ donation. And in a globalized world, ethnic nationalism-and ethnic conflict-are unavoidable political realities. Race is everywhere . . . and yet it's nowhere, since the topic has been deemed "out of bounds" for frank discussion.

>Cutting through the contradictions, euphemisms, and misconceptions, Edward Dutton carefully and systematically refutes the arguments against the concept of "race," demonstrating that it is as much a proper biological category as "species." Making Sense of Race takes us on a journey through the fascinating world of evolved physical and mental racial differences, presenting us with the most up-to-date discoveries on the consistent ways in which races differ in significant traits as a result of being adapted to different ecologies. Intelligence, personality, genius, religiousness, sex appeal, puberty, menopause, ethnocentrism, ear-wax, and even the nature of dreams . . . Making Sense of Race will tell you everything you ever wanted to know about race, but might have been afraid to ask.

<https://www.amazon.co.uk/IQ-Means-Inequality-Population-History-ebook/dp/B08JV876QK/>

>The exploitation of fossil fuels such as coal, oil or natural gas enabled the emergence of today's global industrial society. Cheap energy has led to an unprecedented increase in population to this day. Nevertheless, the democratic society of the West, which produced the welfare state, is in the process of destroying itself again. One reason for this is that the parties fighting for majorities are outdoing each other in promises. The actual reasons for this self-destruction, however, lie deeper: while in the ascendant phase of Western societies entrepreneurial forces did predominate, since about 1970 the striving for equality dominates the public debate. Today, not only are inherited differences in intelligence denied, but false incentives discourage the high-performing and encourage the low-performing. As a result, industrial societies are often no longer able to provide a sufficient number of highly qualified young people. At the same time, the cost of energy, the indispensable fuel of industrial society, is rising. In many places there is a lack of creative potential to counteract the emerging chaotic conditions. All these developments, so the central thesis of this book, must be seen in the context of their interactions: they are the expression of a lawful regulatory cycle that drives

industrial society into a permanent crisis, which is accelerating intermittently and inexorably.

▶ [REQUEST] Battle Lines: Essays on Western Culture, Jewish Influence, and Anti-Semitism Anonymous 12/11/20 (Fri) 23:39:25 e038ac No.13717
File (hide): e1ed8a660e348f6...jpg (27.88 KB,353x533,353:533,Battle_Lines_Essays_on_Wes....jpg) (h) (u)

<https://www.kobo.com/au/en/ebook/battle-lines-15>

>The Jewish Question is foundational to the demographic transformation of the West, the revolution in its sexual and ethical mores, and to the trajectory of Western politics, art and culture. Battle Lines is a compendium of Brenton Sanderson's best writing on Jewish influence on Western societies and culture. Originally featured on The Occidental Observer, these incisive and intellectually-stimulating essays (all revised and updated) range across the cultural landscape of the West, examining Jewish influence on politics, economics, music, art, literature, sexuality, and popular culture. Battle Lines includes a Foreword by Dr. Kevin MacDonald, the author of The Culture of Critique and editor of The Occidental Observer and The Occidental Quarterly.

<https://www.amazon.co.uk/Rape-Culture-Hysteria-Fixing-Damage-ebook/dp/B01EENF4HW/>

>Rape Culture Hysteria: Fixing the Damage Done to Men and Women offers a comprehensive overview and debunking of the "rape culture" myth that has devastated campuses and is spilling into Main Street America. An ideological madness is grotesquely distorting North America's view of sexuality. The book applies sanity to the claims that men are natural rapists and our culture encourages sexual violence.

>Written by a libertarian feminist and rape survivor, Rape Culture Hysteria opens with a highly personal appeal to depoliticize rape and treat it instead as a crime. Victims need to heal. Politicizing their pain and rage is a callous political maneuver that harms victims, women and men.

▶ [REQUEST] Rise of the Black Serial Killer: Documenting a Startling Trend
Anonymous 12/19/20 (Sat) 04:33:26 a9f5eb No.13741
File (hide): 74a3ecce742090e...jpg (69.04
KB,331x497,331:497,Rise_of_the_Black_Serial_K...jpg) (h) (u)

<https://www.amazon.co.uk/Rise-Black-Serial-Killer-Documenting-ebook/dp/B010BN4L1O>

>In Rise of the Black Serial Killers: Documenting a Startling Trend, Justin Cottrell expels the myth that serial killers in America are predominately white. On the contrary after sifting through a myriad of newspaper records and books, he's compiled a list of murderers that is equal too or greater than the number of white serial killers from 1860 to present. Few if any have ever heard any of their names or stories, until now.

>Based on his findings white serial killers have been underrepresented throughout American history when compared to the percentage of the population they represent by a factor of 1.79 on average. On the other hand, black serial killers have been overrepresented 3 to 7 times their portion of the population, with a 150 year average of 4.44. Another startling trend he uncovered is black serial killers have never represented less than 30.23% of the number of serial killers in a given decade, despite their overall percentage of the population never exceeding 13.1%. This trend has steadily increased to the point that in our current decade they represent 77.27% of the number of serial killers apprehended since 2010, yet only account for 12.6% of the populace.

>Aside from trends, this book offers reasons most people assume black serial killers don't exist---from the media prohibition on the subject, to general misunderstandings. Comparisons of the lack of media coverage on violent black crime are pitted against the over coverage of comparable white crimes. Coupled with this is a look into the various factors that breed serial killers, with a look into why black serial killers are on the rise, while white serial killers are on the decline.

>To prove his research is valid, a full list of every black serial killer is provided, along with a brief description of their crimes. In addition to this the biographies of 35 of these killers are given, with detailed information about their crimes.

▣ [REQUEST] The Forgotten Slave Trade: The White European Slaves of Islam
Anonymous 12/20/20 (Sun) 15:42:01 fbfa95 No.13746>>14269

File (hide): 0c08bae2aa0a3f5...jpg (890.13
KB,1716x2560,429:640,The_Forgotten_Slave_Trade_....jpg) (h) (u)

<https://www.amazon.co.uk/Forgotten-Slave-Trade-European-Slaves-ebook/dp/B08N1FCZBL/>

>Everybody knows about the transatlantic slave trade, which saw black Africans snatched from their homes, taken across the Atlantic Ocean and then sold into slavery. However, a century before Britain became involved in this terrible business, whole villages and towns in England, Ireland, Italy, Spain and other European countries were being depopulated by slavers, who transported the men, women and children to Africa where they were sold to the highest bidder. This is the forgotten slave trade; one which saw over a million Christians forced into captivity in the Muslim world.

>Starting with the practice of slavery in the ancient world, Simon Webb traces the history of slavery in Europe, showing that the numbers involved were vast and that the victims were often treated far more cruelly than black slaves in America and the Caribbean. Castration, used very occasionally against black slaves taken across the Atlantic, was routinely carried out on an industrial scale on European boys who were

exported to Africa and the Middle East. Most people are aware that the English city of Bristol was a major center for the transatlantic slave trade in the eighteenth century, but hardly anyone knows that 1,000 years earlier it had been an important staging-post for the transfer of English slaves to Africa.

>Reading this book will forever change how you view the slave trade and show that many commonly held beliefs about this controversial subject are almost wholly inaccurate and mistaken.

▶ [REQUEST] Commie Cowboys: The Bourgeoisie and the Nation-State in the Western Genre Anonymous 12/21/20 (Mon) 15:13:02 fbfa95 No.13752>>14606

File (hide): 93b9e8c5ab42dbf...jpg (43.97 KB,441x666,49:74,Commie_Cowboys_The_Bourgeo....jpg) (h) (u)

<https://www.amazon.co.uk/dp/B00AKRTWT8>

>The Western genre has long been associated with right-wing and libertarian politics, and is said to promote individualism and free-market economics. In a new look at the Western, however, Ryan McMaken shows that the Western is in fact often anti-capitalist, and in many ways, the genre attacks the dominant ideology of nineteenth-century America: classical liberalism.

>The classical Westerns of the mid-twentieth century often feature wealthy capitalist villains who oppress the cowardly and defenseless shopkeepers and farmers of the frontier. The gunfighter, a representative of the law and order provided by the nation-state, intervenes to provide safety and justice.

>In addition to attacks on capitalism, the Western attacks other prized values of the bourgeois middle classes including Christianity, education and urbanization.

>McMaken examines these themes as used in the films of John Ford, Anthony Mann, and Howard Hawks. These pioneers of the classical Westerns are then contrasted with later innovators such as Sergio Leone, Sam Peckinpah, and Clint Eastwood.

>Also included are discussions of the role of the LITTLE HOUSE ON THE PRAIRIE series, Victorian literature, and the nature of crime on the historical frontier.

▣ [REQUEST] Bull's Eye: The Assassination and Life of Supergun Inventor Gerald Bull Anonymous 12/23/20 (Wed) 14:28:33 fbfa95 No.13757
File (hide): b459ae2bb5048d5...jpg (31.56 KB,333x500,333:500,Bull_s_Eye_The_Assassinati...jpg) (h) (u)

<https://www.amazon.co.uk/Bulls-Eye-Assassination-Supergun-Inventor-ebook/dp/B01LXIFIH9/>

>When two 7.5-mm rounds were shot point-blank into Gerald Bull's skull in March 1990, it was the end of a life that had begun with great promise and the beginning of a story that was to shock the world.

>Exactly who killed him was not known, but the real mystery was the man himself and his legacy.

>Born in Canada, Bull was the youngest person ever to receive a doctorate from the University of Toronto. His particular expertise was measuring the performance of objects in flight.

>In the 1960s, he was involved in a joint U.S-Canadian venture to develop huge guns capable of firing satellites into orbit, but his dream of doing so was forced to end when funding for the project was cancelled. Moving away from pure space research, he turned to designing artillery and shells...

>It was Bull who secretly designed the first Star Wars system, twenty years before

Reagan announced his version.

>It was Bull who designed special shells for the Navy to bombard North Vietnam.

>In the late 1970s, the CIA encouraged Bull to build a new gun for the South Africans, despite the U.S. arms embargo.

>It was artillery designed by Bull that confronted American troops during Operation Desert Storm --- artillery that had a longer range than anything comparable in the Allied memory.

>In this stunning work of investigative journalism, Bull's Eye combines the excitement and drama of a thriller with a cast of extraordinary characters from the worlds of intelligence, government, and the arms business. This is the story of the most talented designer of artillery this century; a man betrayed, who in despair and anger fell into the world of seedy arms merchants and ambitious third world dictators.

>The digital revolution has been corrupted. What began as a celebration of freedom has become a machine for monitoring and control. What began as history's greatest dream of enlightenment has been twisted into an anti-intellectual nightmare of indoctrination.

>In twelve essays, several already well-known but newly revised in this volume, Wikipedia co-founder Larry Sanger stakes out a hard-headed position in favor of the ideals of the digital revolution. At the same time he firmly rejects the disastrous naïveté that would have us abandon wisdom and autonomy, ignore subversion by bad actors, and blindly trust unaccountable, giant corporations.

File (hide): 1ffcef9effad7b7...jpg (15.67 KB,259x400,259:400,The_Gun_and_the_Olive_Bran....jpg) (h) (u)

https://archive.org/details/gunolivebranchro0000hirs_2003/

>More than a decade before Israel's New Historians revolutionized the study of Israeli history, English journalist David Hirst wrote The Gun and the Olive Branch, a classic, myth-breaking general history of the Israeli-Palestinian conflict. Hirst, former Middle East correspondent of the Guardian, traces the origins of the terrible conflict back to the

1880s to show how Arab violence, although often cruel and fanatical, is a response to the challenge of repeated aggression. The Gun and the Olive Branch is an absorbing, potentially controversial, history of the Middle Eastern conflict that is indispensable to anyone with an interest in world politics and by partisans of both sides. This classic and controversial account of the origins of the Middle East conflict returns to print updated with a lengthy introduction that reflects on the course of recent Middle Eastern history -- especially the abortive Israeli-Palestinian peace process and 9/11.

▶ [REQUEST] Albert Einstein : the incorrigible plagiarist Anonymous 01/05/21 (Tue) 21:47:57 3bdef6 No.13790>>13879

File (hide): ceb28a5063516a7...jpg (38.7 KB,1200x630,40:21,499075_UY630_SR1200_630_.jpg) (h) (u)

Also any of his other books if you have them. (Einstein : the incorrigible racist) etc

I wanted to buy this but it's \$1800.00 dollars on amazon. Red Ice radio did an episode with the guy and I'm extremely interested in looking at the details of what he researched especially with the implications on modern science. I always dismissed 'Einstein stole all his work bro' but I'm actually pretty convinced of it now especially with all the history behind it.

here's the episode,

📄 [REQUEST] Schools for Misrule: Legal Academia and an Overlawyered America

Anonymous 01/06/21 (Wed) 01:15:01 570dad No.13792

<https://www.amazon.co.uk/Schools-Misrule-Academia-Overlawyered-America-ebook/dp/B004MYFUVO/> & <https://archive.org/details/schoolsformisrul0000olso>

>From Barack Obama (Harvard and Chicago) to Bill and Hillary Clinton (Yale), many of our current national leaders emerged from the rarefied air of the nation's top law schools. The ideas taught there in one generation often shape national policy in the next.

>The trouble is, Walter Olson reveals in Schools for Misrule, our elite law schools keep churning out ideas that are catastrophically bad for America. From class action lawsuits that promote the right to sue anyone over anything, to court orders mandating the mass release of prison inmates; from the movement for slavery reparations, to court

takeovers of school funding---all of these appalling ideas were hatched in legal academia. And the worst is yet to come. A fast-rising movement in law schools demands that sovereignty over U.S. legal disputes be handed over to international law and transnational courts.

>It is not by coincidence, Olson argues, that these bad ideas all tend to confer more power on the law schools' own graduates. In the overlawyered society that results, they are the ones who become the real rulers.

▶ [REQUEST] Havana Syndrome Anonymous 01/10/21 (Sun) 02:44:40 570dad No.13799
File (hide): a5caec9b9f66282...jpg (134.52 KB,827x1279,827:1279,Havana_Syndrome_Mass_Psych....jpg) (h) (u)

<https://www.amazon.co.uk/Havana-Syndrome-Psychogenic-Illness-Hysteria-ebook/dp/B0867DYM9G/>

>It is one of the most extraordinary cases in the history of science: the mating calls of insects were mistaken for a "sonic weapon" that led to a major diplomatic row. Since August 2017, the world media has been absorbed in the "attack" on diplomats from the

American and Canadian Embassies in Cuba. While physicians treating victims have described it as a novel and perplexing condition that involves an array of complaints including brain damage, the authors present compelling evidence that mass psychogenic illness was the cause of "Havana Syndrome."

>This mysterious condition that has baffled experts is explored across 11-chapters which offer insights by a prominent neurologist and an expert on psychogenic illness. A lively and enthralling read, the authors explore the history of similar scares from the 18th century belief that sounds from certain musical instruments were harmful to human health, to 19th century cases of "telephone shock," and more contemporary panics involving people living near wind turbines that have been tied to a variety of health complaints. The authors provide dozens of examples of kindred episodes of mass hysteria throughout history, in addition to psychosomatic conditions and even the role of insects in triggering outbreaks.

>Havana Syndrome: Mass Psychogenic Illness and the Real Story Behind the Embassy Mystery and Hysteria is a scientific detective story and a case study in the social construction of mass psychogenic illness.

<https://www.amazon.co.uk/Wasnt-About-Slavery-Exposing-Great-ebook/dp/B07Z3Y3ZLM/>

It Wasn't About Slavery: Exposing the Great Lie of the Civil War

>If you think the Civil War was fought to end slavery, you've been duped.

>In fact, as distinguished military historian Samuel Mitcham argues in his provocative new book, It Wasn't About Slavery, no political party advocated freeing the slaves in the presidential election of 1860. The Republican Party platform opposed the expansion of slavery to the western states, but it did not embrace abolition.

>The real cause of the war was a dispute over money and self-determination.

>Before the Civil War, the South financed most of the federal government---because the federal government was funded by tariffs, which were paid disproportionately by the agricultural South that imported manufactured goods.

>Yet, most federal government spending and subsidies benefited the North. The South

wanted a more limited federal government and lower tariffs---the ideals of Thomas Jefferson—and when the South could not get that, it opted for independence.

>Lincoln was unprepared when the Southern states seceded, and force was the only way to bring them---and their tariff money—back. That was the real cause of the war.

>A well-documented and compelling read by a master historian, It Wasn't About Slavery will change the way you think about Abraham Lincoln, the Emancipation Proclamation, and the cause and legacy of America's momentous Civil War.

<https://www.amazon.co.uk/Slavery-Was-Cause-Between-States-ebook/dp/B018561FL8/>

Slavery Was Not the Cause of the War Between the States: The Irrefutable Argument

>This book proves beyond the shadow of a doubt that the North did not go to war to free the slaves or end slavery. The North went to war because it faced economic annihilation and a Southern competitor that controlled the most demanded commodity on earth: cotton. The North's economy was based mostly on manufacturing for the South and shipping Southern cotton around the world. Cotton alone was 60% of U.S. exports in 1860. When the South seceded, the Northern economy began a dramatic collapse, and by war time, there were hundreds of thousands of hungry, unemployed Northerners in the street --- and the "tocsin of war" sounded. Economically ignorant Northern leaders then passed the astronomical Morrill Tariff that threatened to destroy the Northern shipping industry by rerouting trade away from the high-tariff North and into the low-tariff South. The Morrill Tariff was like pumping gasoline into an already raging fire. Abraham Lincoln was the first sectional president in American history. He was president of the North, and the North was clamoring for war. He saw an opportunity to start it without appearing to be the aggressor, so he took it, as verified by several Northern newspapers. Thus, he started a war that killed 800,000 men and wounded a million. The idea that the good North was so outraged over slavery that they marched armies into the South to free the slaves is an absurdity of biblical proportions and this book proves it.

<https://www.amazon.co.uk/Old-Times-There-Should-Forgotten-ebook/dp/B083G3RKMC/>

Old Times There Should Not Be Forgotten: Cultural Genocide in Dixie

>HISTORIAN DR. LESLIE R. TUCKER has thought long and hard about the injustice of the current jihad in America against the historic and still existing Southern people. The result is this careful, candidly unreconstructed review of the history of the South which rejects the "freeing the slaves" interpretation of the War Between the States and demonstrates forcefully that Southerners have little for which to apologise and certainly less than our fervid critics.

<https://www.amazon.co.uk/gp/product/B08T7RD14R/>

>Enough Already: Time to End the War on Terrorism is a masterly history of these chaotic, tragic and above all futile conflicts, ranging with his usual excoriating accuracy from Mali to Pakistan, from Iraq to Yemen by way of Syria and Libya. Millions are dead, disabled or languish desperately far from their homes as the direct result of our blunders, bewilderment and outright malicious stupidity. Thousands of our own soldiers have died or are disabled. Hundreds more of our citizens have died in the U.S. and Europe in what Horton calls the 'backdraft' of our disastrous actions. Ignore the self-serving memoirs or grandiose academic tomes; if you read only one book on the so-called 'War on Terror,' this must be that book.

▶ [REQUEST] The Dark Side of Power: The Real Armand Hammer Anonymous
01/20/21 (Wed) 15:34:11 690a0a No.13844
File (hide): 77caa0b0cf28c5f...jpg (123.34
KB,520x776,65:97,The_Dark_Side_of_Power_The....jpg) (h) (u)

<https://archive.org/details/darksideofpowerr00blum>

>The astonishing story behind Armand Hammer, hailed at the time of his death as one of the greatest entrepreneurs of all time, friend of royalty and of the great statesmen of the 20th century. Carl Blumay was both his public relations consultant and Director of Public Relations at Occidental, and was the chief architect of the carefully crafted public image that Hammer played to perfection on the world stage. At his death on 10th December 1990, Armand Hammer, multimillionaire industrialist, was saluted as not only a great businessman, but also as an art collector and philanthropist, and was the recipient of countless humanitarian awards. Noted, too, were his friendships with presidents, kings, and princes, and his self-appointed role as a peacemaker with unparalleled access to the leaders of the Soviet Union. The world, it was said, would never see the likes of Armand Hammer again. This book includes startling revelations about his marriages and tormented family relationships, his shrewd and ruthless business deals, his sly maneuvers to win political favours from five American presidents, his self-serving manipulation of the media, his bribery schemes, and his

many brushes with the law.

▶ Identifying jews, German Pamphlet Anonymous 01/20/21 (Wed) 21:01:18 cfa7fc No.13845
File (hide): 4d12255c8a9d874...png (190.49 KB,458x438,229:219,1611134667210.png) (h) (u)

Hello peeps, just wondering if anybody has the short pamphlets(?) that were handed out to German citizens on how to identify jews. "Visually" and I believe their mental processes were included, like arguing and lying.

I remember seeing them online translated to English, but they were incomplete and missing the whole back end of the pamphlets. They were mostly visual aids from memory, and easy to read. So I think they'd be a great source to help insta-red-pill others.

Was hoping one of you might know what I'm referring to.

▶ [REQUEST] The Powerbroker: Mark Leibler, an Australian Jewish Life Anonymous 01/20/21 (Wed) 21:54:37 690a0a No.13847
File (hide): 8e3c36d36885561...jpg (301.96 KB,1674x2560,837:1280,The_Powerbroker_Mark_Leibl...jpg) (h) (u)

<https://www.amazon.co.uk/Powerbroker-Mark-Leibler-Australian-Jewish-ebook/dp/B08DV784B3/>

>From the ashes of the darkest event in human history, Australian Jews built a thriving community, one with proportionally more Holocaust survivors than anywhere else in the world bar Israel. Mark Leibler grew up in this community, and in time became a leader of it. This book shows how Leibler rose to a position of immense influence in Australian public life by skilfully entwining his roles as a Zionist leader and a tax lawyer to some of the country's richest people.

>The book vividly paints a cast of Australian characters -- among them Paul Keating, John Howard, Julia Gillard and Noel Pearson --- who came to know Leibler and to call him a friend, along with people like Kevin Rudd and Bob Carr, who see Leibler as no friend at all. Finally, the book charts the surprise turn in Leibler's life, when a social and political conservative became a committed advocate for radical reform on behalf of Australia's Indigenous people.

>This many-layered book is a portrait of Jewish life in Australia, of the interaction between private wealth and politics, and of a man whose energy, formidable work habits and forcefulness that often tips into pugnacity have made him a highly effective player in Australian affairs.

>'He taught me about power --- how to get it and how to use it,' says Noel Pearson. Through one man's story, this book shows how power works in Australia.

<https://www.amazon.co.uk/Gods-Abyss-Essays-Heidegger-Germanic-ebook/dp/B08KTVTXTB/>

>How can we find stability in the Night of the World? How can we anchor ourselves in the void of existence, the great nothingness of the endless dark plain ahead of us? The new voices of the old Gods can be heard from afar, beckoning us back into the fold of the folk. Where will we wander? Into oblivion or the primeval forest, from whence we came and to which we have always belonged and thus must return?

>The meanings of words spell out the destinies of men. Acknowledging the roots of language leads us to an understanding of where we now stand and where we must go if we do not want to perish. The Gods without must once again become the Gods within, so we can hear for the last time the faint whispers of our ancestors guiding us into a better tomorrow.

▶ [REQUEST] Guillaume Faye: Truths and Tributes Anonymous 01/30/21 (Sat)
00:54:26 27aaa1 No.13878
File (hide): f9b826e829f5e5c...jpg (117.69
KB,708x1095,236:365,Guillaume_Faye_Truths_and_....jpg) (h) (u)

<https://www.amazon.co.uk/Guillaume-Faye-Tributes-Pierre-Krebs-ebook/dp/B08PMYXZTM/>

>Guillaume Faye was a visionary and a prophet. Like the damned poets for which romantic France is famous, he saw what others refused to see, and he named what others pretended did not even exist.

>He was certainly no saint and like a true artist liked to imbibe and paint imposing mental images of the future with a brushstroke unmistakably his own. His character was consistently rebellious in the service of a higher ideal: the defense of his race and culture against the onslaught of self-imposed ethnomasochism, forced multiculturalism and aggressive Islamization.

>In this book, important personages from the Right pay tribute to Faye's outstanding career as a speaker, writer and pro-European activist. With all its ups and downs and in its lyrical grandeur, Faye's life truly inspires all of us who strive to make a difference in our motherland - Eurosiberia. Faye was an awakener, who paved the way on which we must march to final victory and liberation.

Stan Gooch's essays "Science Fiction as Religion" and "Alternative Persons", are all but impossible to find in paper, at least the former is available here:

<https://totalgooch.wordpress.com/bibliography/1981-science-fiction-as-religion-with-christopher-evans-brans-head-books-ltd/full-essay/>

This seems to have been converted from an ePub pdf. It is his "The Origins of Psychic Phenomena" book, originally published as "Creatures from Inner Space":

<https://web.archive.org/web/20180130145725/https://a.pomf.cat/qsnbgi.pdf>

This is "Four Years On", not paranormal I think (Gooch was a psychologist, and this book is listed on Wikipedia), but included for completion (Internet Archive rip):

<https://www.mediafire.com/file/dmgd5z5csn0jr7y/fouryearsonfollo0000gooc.pdf/file>

This is a rip of "The Paranormal", mentioned by >>13691:

<https://www.mediafire.com/file/mjwjc71ul2ef7i8/paranormal0000gooc.pdf/file>

<https://www.amazon.co.uk/dp/B01GQSN56A/>

>Is the West today a unified or diverse culture? The orthodox position is that we should be strictly unified around the ideal of diversity. The idealistic vision is that we achieve redemption by angrily rejecting our immoral, fallen history, and lovingly embrace the sunny future of diversity. Heaven is Nature and the perfectly loving and diverse future; Hell is the disdainful and divisive past. Today, ethical and scientific facts that imply hellish disdain, and not love, are experienced as domineering or a "hegemonic discourse" and are worthy of attack: "Subvert the Dominant Paradigm!"---Walter Burkert, the eminent historian of religion said of this model, "Many thanks for the startlingly

insights.”

>The nineteenth century was unified by exalting high culture and disliking nature and diversity. We today have inverted this; we are unified by disdain for high culture, and love for nature and diversity: so joyful, altruistic feelings exist between those in the group who embrace the new unity---but they direct antagonism toward outsiders. Today’s new unity, as described in Human Sin or Social Sin, inspired evolutionary psychologists to reconsider the theory of group selection for altruism.

This is more a question for the library/archive thread, not the request one.

Never the less, most state or university digitalized most of their archives by now, I think you can browse most of it with some kind of library account from all over the world.

That said, most of the historical "more controverse" stuff is not easily available. But archive.org, z-library and the libgens are generally a good start and get you more than you might think. It is also surprising, how helpful an easy Yandex search can be.

A few more obscure sources:

<https://aryanalibris.com/>

<https://wintersonnenwende.com/scriptorium/english/archivesindex.html>

..or any of the 16-,Neu-,Nein-Chan reading lists for fascists. On might add Anoncafe, but their board will be killed later in march.

Now, if you search for fiction and uncontroversial stuff in German language, this is one of the largest free libraries I've encountered so far:

<http://kx5thpx2olielkihfy04jgjqfb7zx7wxr3sd4xzt26ochei4m6f7tayd.onion/>

The operators there are leftist bastards, but oh well.

How badly do you want it?

The British Libray has a delivery on demand service (see pics). Maybe they can do Nation at War, but I'd send half a dozen mails to them beforehand to make sure it's actually the right one.

Otherwise, take the original German. Since it's in frakturshrift you'll need a software (like Abbyy Finereader 15 or possibly tesseract-ocr) or online tool (like newocr.com) that can do it.

Then you plug the output into DeepL (for major euro languages it is really good) and make your own version. Then it's "just" a matter of reading the result and checking for the rare nonsensical sentences that seeped through.

(That's what I did for some German essays I just finished translating...)

<https://www.amazon.co.uk/Rise-Fall-United-States-America-ebook-dp-B07CLKYC7M/dp/B07CLKYC7M/>

>The Rise and Fall of the United States of America is a sweeping look at the rise of the greatest nation in the world and some of its formidable achievements. It also is an introspective analysis of the symptoms of decline and a warning about the path it is taking---allowing an influx of immigrants who are bent on challenging the laws, dismantling the culture, and conquering our country. It's time to reflect on what made this country great and heed the warning to what could be its downfall.

File (hide): 6bf0b6702a955f6...gif (59.73 KB,600x425,24:17,Breach_of_Security_The_Ger....gif) (h) (u)

<https://archive.org/details/breachofsecurity0000germ/>

>The document now printed is one of the very few surviving examples of the work of the most secret of all the German intelligence agencies active in the Nazi era, the Forschungsamt (Research Office).

>Very little apart from the fact of its existence appears to have been known by Allied Intelligence agencies during the war. Its own records were in great part destroyed in January 1945 in Breslau to avoid their falling into Russian hands. The office was evacuated to Breslau after its headquarters on the Schillerstrasse in Berlin-Charlottenburg had been burnt out by British incendiaries on the night of 22 November 1943. The remaining records were destroyed at the end of April 1945 before the German capitulation. Its existence was mentioned at the trial of its erstwhile head, Reichsmarschall Hermann Göring, on war crimes charges at Nuremberg. But it has only received the scantiest of attention by historians and memoir writers since 1945.

>Yet its intelligence reports, the so-called 'brown pages', Braune Blätter, covered the whole range of international and domestic political and economic intelligence. They were circulated to a wide range of German Ministries and other interested agencies.

And at the height of its activity it employed well over three thousand people and enjoyed a budget of twenty-five million Reichsmarks. The job of the Forschungsamt was, in the jargon of the intelligence agencies, purely 'passive'; to collect and record information in accordance with general and specific requests made to it by other German Government agencies. Its information came in part from monitoring public sources of information, the foreign press, radio and press services, in part from monitoring radio, wireless, and all telecommunications traffic passing in and out of German-controlled territory. It never employed any agents; and it never planted microphones. It simply listened in to all public forms of communication. A great deal of its work was the provision of economic intelligence, especially after the outbreak of war in 1939, when its information on the movement of world prices, the availability of new material supplies and so on were of considerable importance to the management of Germany's war economy.

▶ [REQUEST] Eternal Strangers: Critical Views of Jews and Judaism Through the Ages Anonymous 03/12/21 (Fri) 03:09:14 05ef7d No.14002
File (hide): b82e02d9efba490...jpg (34.15
KB,267x400,267:400,Eternal_Strangers_Critical....jpg) (h) (u)

<https://shop.codoh.com/book/eternal-strangers-en/830/>

>It is common knowledge that Jews have been disliked for centuries---sometimes loathed, sometimes hated. But why? The standard reply is that anti-Semitism is a “disease” that, for some strange reason, has afflicted non-Jews for ages. But this makes little sense. Nor can it be an “irrational” reaction. Such things must have real, physical causal factors.

>Our best hope for understanding this recurrent ‘anti-Semitism’ is to study the history: to look at the actual words written by prominent critics of the Jews, in context, and with an eye to any common patterns that might emerge. Such a study reveals strikingly consistent observations: Jews are seen as pernicious, conniving, shifty liars; they harbor a deep-seated hatred of humanity; they are at once foolish and arrogant; they are socially disruptive and rebellious; they are ruthless exploiters and parasites; they are master criminals---the list goes on.

>The persistence of such comments is remarkable and strongly suggests that the cause for such animosity resides in the Jews themselves---in their attitudes, their values, their ethnic traits and their beliefs. It is hard to come to any other conclusion than that Jews are inclined toward actions that trigger a revulsion in non-Jews. Jews have always been, and will always be, eternal strangers.

>Given this fact, we have a difficult path forward. One lesson of history is that Jews will not change; if anything, they will become better at hiding their real motives and intents. Under such conditions, many great thinkers have come to the conclusion that Jews must be separated from the rest of humanity.

>Eternal Strangers is a profoundly important book. It addresses the modern-day “Jewish problem” in all its depth---something which is arguably at the root of many of the world’s social, political and economic problems. The matter is urgent; we haven’t a moment to lose.

▶ [REQUEST] Prelude to War: Chronicle of the Coming Cataclysm Anonymous 03/19/21 (Fri) 06:35:06 5dee85 No.14013>>14299

File (hide): 61b850b24d12089...jpg (141.42 KB, 880x1360, 11:17, Prelude_to_War_Chronicle_o....jpg) (h) (u)

<https://www.amazon.co.uk/Prelude-War-Chronicle-Coming-Cataclysm-ebook/dp/B08YHGQHTR>

>Guillaume Faye's Prelude to War is a potent indictment of terminally decadent and hopelessly apathetic Europeans. Because of utter indifference and through skillful brainwashing by the corrupt elites, they seem resigned to their fate, namely subjugation under the merciless heel of Islam and flooding by the Third World, and thus eventual extinction in a sea of ravening masses. Faye not only targets the traitors and defeatists in our midst, namely the liberals and the leftists, he also mocks the cowardly attitudes of so-called 'conservatives', who are incapable of actually conserving any authentic values because they constantly make concessions to the prevailing rotten zeitgeist.

>The war for the soul and survival of Western civilisation is real, and it is right on our doorstep. Faye paints a truly apocalyptic picture of the twenty-first century as an era of massive conflicts and calamities, which will resemble the Middle Ages in terms of sheer brutality and radical regression. Verily, this is Europe's last stand - either it learns to be sufficiently ruthless, with pagans and Christians united on the offensive again, or it will

sink forever into a Muslim-dominated hole of oblivion.

▶ [REQUEST] Stalin's War: A New History of the Second World War Anonymous
04/19/21 (Mon) 13:48:52 e2856d No.14066>>14121

File (hide): 7e2efda8b9a22ca...jpg (39.77
KB,323x500,323:500,Stalin_s_War_A_New_History....jpg) (h) (u)

<https://www.amazon.co.uk/Stalins-War-History-Second-World-ebook/dp/B08FXYWSKK/>

>In this remarkable, ground-breaking new book Sean McMeekin marks a generational shift in our view of Stalin as an ally in the Second World War. Stalin's only difference from Hitler, he argues, was that he was a successful murderous predator. With Hitler dead and the Third Reich in ruins, Stalin created an immense new Communist empire. Among his holdings were Czechoslovakia and Poland, the fates of which had first set the West against the Nazis and, of course, China and North Korea, the ramifications of which we still live with today.

>Until Barbarossa wrought a public relations miracle, turning him into a plucky ally of the West, Stalin had murdered millions, subverted every norm of international behaviour, invaded as many countries as Hitler had, and taken great swathes of territory he would continue to keep. In the larger sense the global conflict grew out of not only German and Japanese aggression but Stalin's manoeuvrings, orchestrated to provoke wars of attrition between the capitalist powers in Europe and in Asia. Throughout the war Stalin chose to do only what would benefit his own regime, not even aiding in the effort against Japan until the conflict's last weeks. Above all, Stalin's War uncovers the shocking details of how the US government (to the detriment of itself and its other allies) fuelled Stalin's war machine, blindly agreeing to every Soviet demand, right down to agents supplying details of the atomic bomb.

▶ [REQUEST] Fire in the Dark: Men and Gods Anonymous 04/26/21 (Mon) 15:13:26 e2856d No.14087

File (hide): b83004f3689702d...jpg (118.06 KB,938x1502,469:751,Fire_in_the_Dark_Men_and_G...jpg) (h) (u)

<https://www.amazon.co.uk/gp/product/B08XYDVLMB/>

>Men today have the ability to read and be inspired by masculine myths and stories from all of the world's religions. We can see how they evolved from one to another. Still, so many men find themselves searching for some sense of what is sacred and want to connect to something eternal, something greater than themselves. The question is: with so many choices, so many traditions, so many gods and heroes -- which ones?

>In Fire in the Dark, author Jack Donovan best known for his underground classic, The Way of Men explores the common themes in these myths that are still relevant to the lives of men today. Beginning with the simple, primal metaphor of the campfire, Donovan identifies a tripartite system of masculine roles and shows how those roles have been repeated again and again throughout the history of myth and religion. It is the nature of men to create order from chaos, and when order has been created, it is the work of men to protect and perpetuate that order. These jobs have been idealized in world-ordering sky fathers and thundering warriors and fertility gods. Donovan has integrated these ideals into a natural spirituality for men that is not new, but actually draws from the very oldest ideas about what it means to be a man.

► [REQUEST] The Ruler of Cheshire: Piers Dutton, Tudor Gangland & the Violent Politics of the Palatine Anonymous 04/29/21 (Thu) 01:57:39 e2856d No.14092
File (hide): 750432c7c81e44b...jpg (82.57 KB,353x500,353:500,The_Ruler_of_Cheshire_Sir_....jpg) (h) (u)

<https://www.amazon.co.uk/Ruler-Cheshire-Gangland-Politics-Palatine-ebook/dp/B017E649W2>

>Beyond the control of the crown, Early Tudor Cheshire was a lawless gangland in which warring magnates battled for power. None were more ruthless than Sir Piers Dutton. Friend of Henry VIII's chief minister Thomas Cromwell, trusted servant of the king, and son of one of Cheshire's most influential families, Dutton drew upon a combination of cut-throat guile, carefully cultivated connections, and pure good luck to destroy his enemies and dominate the county palatine.

>'The Ruler of Cheshire' is a story of gang warfare, rampant corruption, violent vendettas, power politics, and murder. It traces the rise of Sir Piers Dutton from wayward youth languishing in Chester jail, to trusted courtier, High Sheriff of Cheshire, scourge of the king's enemies, and figure so powerful that his rivals conceded that he could do as he wished in Cheshire and there was nothing anybody could do about it.

>The first detailed biography of an Early Tudor local magnate, Early Tudor life being much more local then now, 'The Ruler of Cheshire' makes a vital contribution to Gentry Studies as well as bringing to life one of Tudor Cheshire's most fascinating and unscrupulous characters.

▶ [REQUEST] The Decline and Fall of the British Aristocracy Anonymous 05/01/21 (Sat) 01:25:03 e2856d No.14098>>14099

File (hide): d9058210ae72b7b...jpg (373.29 KB,766x1184,383:592,The_Decline_and_Fall_of_th...jpg) (h) (u)

<https://archive.org/details/declinefallofbri0000cann>

>At the outset of the 1870s, the British aristocracy could rightly consider themselves the

most fortunate people on earth: they held the lion's share of land, wealth, and power in the world's greatest empire. By the end of the 1930s they had lost not only a generation of sons in the First World War, but also much of their prosperity, prestige, and political significance.

>Deftly orchestrating an enormous array of documents and letters, facts, and statistics, David Cannadine shows how this shift came about--and how it was reinforced in the aftermath of the Second World War. Astonishingly learned, lucidly written, and sparkling with wit, *The Decline and Fall of the British Aristocracy* is a landmark study that dramatically changes our understanding of British social history.

▶ [REQUEST] Metaphysics of Power Anonymous 05/21/21 (Fri) 03:11:46 754999 No.14122

File (hide): e67ea82f8573f0a...jpg (120.69

KB,717x1109,717:1109,Metaphysics_of_Power.jpg) (h) (u)

<https://www.amazon.co.uk/Metaphysics-Power-Julius-Evola-ebook/dp/B08VHMZ4WD>

>Metaphysics of Power is a collection of Julius Evola's powerfully argued articles organised into areas key to Evola's thought: the State, Education, Family, Liberty & Duty, Monarchy, Empire, Modern Society, and Aristocracy.

>Coursing through much of Evola's work represented here is the key notion of the four-caste system: king, warrior, merchant, and laborer; which is clearly explicated in Decline of the Idea of the State and often referred to in other articles. The theme - namely the deviation from this ancient and nearly universal tradition - is part of the bedrock of Evola's critique on why the modern state often fails.

>Various articles in this work touch on sensitive themes and demonstrate Evola's nuanced approaches to issues such as divorce, the Catholic Church's understanding of marriage, and individualism, but also handle with humor educational approaches such as the Montessori School, feminism, bureaucracy, and Europe's modern nobility.

>Most of these articles are translated here for the first time and offer the reader - in

strong, erudite English matching Evola's strong, erudite Italian - a deeper dive into Evola's thoughts, philosophy, and opinions, while the tone of these articles ranges from patient and pedagogical to brutal and scathing. Metaphysics of Power represents a must-have for the seasoned disciple of Evola's philosophy, but is also a unique opportunity for the novice in traditionalist studies as it offers smaller, tighter explanations of Evola's views on key issues.

▶ [REQUEST] The Later Philosophy of Pentti Linkola Anonymous 06/04/21 (Fri) 16:33:34 a59be7 No.14129
File (hide): 33eef04ff1a7367...jpg (118.73 KB,1380x2196,115:183,The_Later_Philosophy_of_Pe....jpg) (h) (u)

<https://www.amazon.co.uk/Later-Philosophy-Pentti-Linkola-ebook/dp/B086DGM28M/>

>In the first ever English-language, book-length philosophical analysis of Pentti Linkola's controversial vision of Deep Ecology and the ideal society, Chad A. Haag

attempts a rigorous analysis of Linkola's later writings, especially those written from the early 1990s to the release of his 2004 text *Voisiko elämä voittaa*. Although most readers outside Finland are primarily acquainted with Linkola through the English-language abridgement *Can Life Prevail?*, Haag goes far beyond this territory by incorporating numerous previously inaccessible essays, interviews, and speeches in order to introduce audiences to a more holistic picture of Linkola's monumental thought. Linkola's thought is elucidated through contrasting him with the three great philosophical representatives of democratic modernity by opposing his ethical system with that of Kant, his political philosophy with that of Habermas, and his ontology with that of Žižek. In addition, his thus-far unacknowledged relation to classical philosophical thinkers such as Foucault, Husserl, Gadamer, Deleuze, Guattari, and Thomas Aquinas shall be explored, as well as his relation to more recent anti-technological thinkers like Ted Kaczynski, Varg Vikernes, John Michael Greer, Dmitry Orlov, Michael Ruppert, and Julius Evola. Finally, his contrast with leftist and liberal political activists such as Shaun King, Ana Kasparian, Bernie Sanders, and Andrew Yang shall provide abundant sources of humor.

▣ [REQUEST] Facing Reality: Two Truths about Race in America Anonymous
06/14/21 (Mon) 22:27:31 f5145a No.14146>>14154

File (hide): 9df7d1bc2f3adf7...jpg (27.64
KB,324x500,81:125,Facing_Reality_Two_Truths_...jpg) (h) (u)

<https://www.amazon.co.uk/gp/product/B08PL6C4RQ/>

>The charges of white privilege and systemic racism that are tearing the country apart float free of reality. Two known facts, long since documented beyond reasonable doubt, need to be brought into the open and incorporated into the way we think about public policy: American whites, blacks, Hispanics, and Asians have different violent crime rates and different means and distributions of cognitive ability. The allegations of racism in policing, college admissions, segregation in housing, and hiring and promotions in the workplace ignore the ways in which the problems that prompt the allegations of

systemic racism are driven by these two realities.

>What good can come of bringing them into the open? America's most precious ideal is what used to be known as the American Creed: People are not to be judged by where they came from, what social class they come from, or by race, color, or creed. They must be judged as individuals. The prevailing Progressive ideology repudiates that ideal, demanding instead that the state should judge people by their race, social origins, religion, sex, and sexual orientation.

>We on the center left and center right who are the American Creed's natural defenders have painted ourselves into a corner. We have been unwilling to say openly that different groups have significant group differences. Since we have not been willing to say that, we have been left defenseless against the claims that racism is to blame. What else could it be? We have been afraid to answer. We must. Facing Reality is a step in that direction.

I used this thread to find good autobiographical books. I need to prepare for college work based on an autobiography that inspires me. I already realized that I could not cope with this task on my own and therefore began to look for a suitable service that could help me with this. The reviews help me with this But I select the book and the basic information myself.

>This is a detailed account of The America First Committee, with information on their efforts, organisation, notable members and events, contemporary politics, and more. The America First Committee (AFC) was the foremost United States non-interventionist pressure group against the American entry into World War II. This volume will appeal to those with an interest in the Second World War, and it would make for an interesting addition to collections of allied literature. Contents include: "The Genesis", "Leadership, Organisation, and Finances", "The Great Arsenal of Democracy?", "War or Peace?", "Capitalism, Communism, and Catholicism", "Military Defence", "The Nazi Transmission Belt?", "Anti-Semitism and America First", "Shoot on Sight", "Politics", etc.

📄 [REQUEST] The Liberal Invasion of Red State America Anonymous 07/11/21
(Sun) 04:59:33 800761 No.14241
File (hide): 40329ad8a1c8583...jpg (118.37
KB,657x992,657:992,The_Liberal_Invasion_of_Re....jpg) (h) (u)

<https://www.amazon.co.uk/Liberal-Invasion-Red-State-America-ebook/dp/B07RKY45YJ/>

>Refugees from high-tax Massachusetts turned New Hampshire blue. Democratic voters from Yankee states are swamping Tennessee and Georgia. Government employees and refugees from Maryland have turned Virginia from a conservative Southern state into left-leaning Democrat territory. Escapees from California have transformed Colorado, and they're aiming for Texas next.

>One state after another is turning from red to purple to blue. America is being radically changes by people leaving blue states for better living conditions and opportunities in red states---only to import to their new homes the very policies that created the misery they fled from in the first place.

>The direction of the change is undeniable:

>• A 2019 poll found that 53 percent of residents are considering leaving California on account of the exorbitant cost of living

>• From 2008-2018, Houston's population surged more than 15 percent, and the top metro areas of origin for those new Texas residents were Los Angeles, New York, and Chicago

>• Migration from blue states is changing the Texas electorate: between 2010 and 2018, votes for Democrats went up 50 percent, while Republican votes increased by just 10 percent

>• Boom is turning to bust in cities like Denver, as hip blue state refugees to red states raise the cost of living by voting in liberal policies

>The liberal invasion of the conservative states is having major impacts on our elections, our economy, and our standard of living. And yet few Americans are even aware of the trend, and fewer still have any idea of the significant implications for the future of the United States.

>Now, in *The Liberal Invasion of Red State America*, indefatigable reporter Kristin Tate delves into the data, lays out the astonishing statistics, and explores the likely consequences of this under-the-radar trend. If you want to understand the movement that is reshaping our country, read this groundbreaking book.

📄 [REQUEST] *Destructive Generation: Second Thoughts About the Sixties*
Anonymous 07/14/21 (Wed) 00:07:18 800761 No.14244
File (hide): 7fe6ce7094a60d3...jpg (169.89 KB,623x982,623:982,Destructive_Generation_Sec....jpg) (h) (u)

<https://archive.org/details/destructivegener0000coll>

>As leading New Leftists in the Sixties, Peter Collier and David Horowitz were intimately involved in the radicalism of the day. Later on, they became the first of their generation to publicly reject the objectives of that revolutionary era and point out the cultural chaos it had left behind. Part memoir, part political analysis, part social history, **DESTRUCTIVE GENERATION** is the compelling story of their intellectual journey into and out of the radical trenches. Telling stories of the New Left's most famous (and infamous) personalities and events, Collier and Horowitz reveal the destructive legacy of the Sixties and the way in which that decade continues to cast a long shadow over politics and culture today.

File (hide): 7f2b42cc7f952e8...jpg (30.52 KB,326x500,163:250,Shadow_Of_The_Panther_Huey....jpg) (h) (u)

<https://archive.org/details/shadowofpantherh00pear>

>Pearson (Pacific News Service) offers a history of the Black Panthers and an account of the rise and fall of Huey Newton. He traces the development of the civil rights

movement from the formation of the Brotherhood of Sleeping-Car Porters in the 1920s through the leadership of Martin Luther King and Malcolm X, and demonstrates how Newton's personal conflicts mirrored those of the Black Panther Party.

▣ [REQUEST] Call Me Phaedra: The Life and Times of Movement Lawyer Fay Stender Anonymous 07/22/21 (Thu) 10:28:30 1a27a3 No.14252
File (hide): 9af40c6fdf3115f...jpg (100.73 KB,907x1360,907:1360,Call_Me_Phaedra_The_Life_a...jpg) (h) (u)

<https://www.amazon.co.uk/CALL-ME-PHAEDRA-Movement-Stender-ebook/dp/B07D4C1WCF/>

>Who was Fay Abrahams Stender? A giant among Movement lawyers from the McCarthy Era to the 1970s intent on forcing society to change. Friends could easily picture her as the heroine of a grand opera. A child prodigy, she abandoned the concert piano to become a zealous advocate for society's most scorned and vilified criminal defendants: from the Rosenberg espionage case during the Cold War to militant black clients, Black Panther Party leader Huey Newton and revolutionary prisoner George

Jackson, to prisoners in the "Dachau" of maximum security. Stender achieved amazing legal successes in criminal defense and prison reform before she ultimately refocused with similar zeal on feminist and lesbian rights.

>In May 1979, an ex-felon invaded her home and shot her execution-style after forcing her to write a note saying she betrayed George Jackson. She barely survived. Wheelchair bound and under 24-hour police protection, she then became the star witness in her assailant's prosecution. Awaiting trial in a secret hideaway in San Francisco, Fay told the few friends she let visit her there to "call me Phaedra," a tragic heroine from Greek mythology. Shortly after the trial, like Phaedra, she committed suicide.

>Set against a backdrop of sit-ins, protest marches, riots, police brutality, assassinations, death penalty trials and bitter splits among Leftists, this book makes for a compelling biography. Yet it delivers on a broader goal as well - an overview of the turbulent era in which Fay Stender operated under the watchful eye of the FBI and state officials. We not only relive Stender's story, but that of a small cadre of committed Bay Area activists who played remarkable roles during the McCarthy Era, Civil Rights Movement (including Mississippi Freedom Summer), the Free Speech Movement, Vietnam War protests, and the rise of Black Power.

>Besides revolutionaries Huey Newton and George Jackson, Fay's life intertwined with: Jessica Mitford (who dubbed Fay her "frenemy"), Bob Treuhaft, Charles Garry, Bob Richter, Stanley Moore, Tom Hayden, Jane Fonda, Stokely Carmichael, Cesar Chavez, Mario Savio, George Crockett, Joan Baez, Willie Brown, Ron Dellums, Jerry Rubin, Max Scherr, Jean Genet, Elsa Knight Thompson, Kay Boyle, Bobby Seale, David Hilliard, Angela Davis, Eldridge and Kathleen Cleaver, and Mike Tigar, among others.

>By the fall of 1970, Stender had gained international press coverage as the most sought-after Movement lawyer in America. She had just achieved spectacular successes against all odds for two black revolutionary clients. The book also describes Stender's ultimate failure to surmount class and racial differences to make her clients' cause her own and how, as in a Greek tragedy, hubris led to her downfall. Fay's tragic end served as a sobering lesson to her Movement friends of the personal risks many of them had run. For many, her death symbolized the end of an era.

▶ [REQUEST] Left Behind In Rosedale: Race Relations And The Collapse Of Community Institutions Anonymous 07/30/21 (Fri) 00:34:10 1a27a3 No.14257>>14314

File (hide): bfecffc8990484c...jpg (48.39 KB,327x500,327:500,Left_Behind_In_Rosedale_Ra....jpg) (h) (u)

<https://www.amazon.co.uk/Left-Behind-Rosedale-Relations-Institutions-ebook-dp-B079TQ3N32/dp/B079TQ3N32/>

>Left Behind in Rosedale is a stunning analysis of community and neighborhood decline. Through creative application of ethnographic analysis, participant observation, and in-depth interviews, Scott Cummings' unique book breathes human life into one of the most serious problems facing the nation's cities: the ghettoization of urban neighborhoods. Transcending demographic and statistical analysis, he vividly and passionately tells the story of ghettoization by explaining what happens to people's lives during the process of racial transition and change. Cummings takes the reader on a distressing historical journey, detailing the progressive decline of one community's culture. Along the way, he explains and explores the futile attempts of its white elderly residents to maintain their traditional way of life. He then moves to an examination of the black youth who victimize the elderly and explains the family and gang context of their actions. Moving full circle some fifteen years later, after the collapse of Rosedale is nearly complete, Cummings documents the similar plight facing the black elderly and details the grinding poverty that has enveloped the entire community. He concludes by evaluating the community's effort to revitalize itself and explains why these efforts failed. Cummings uses the case of Rosedale as a window to explore and critically evaluate the evolution of American urban policy over the past forty years. He concludes that many of our efforts to solve urban problems have actually made them worse. This book should be read by liberals and conservatives alike, neighborhood and community activists, politicians and reformers, urban planners of American cities, and citizens who want to know why government efforts to revitalize urban neighborhoods have accomplished so

little.

▶ [REQUEST] Genes, Polymorphisms, and the Making of Societies: A Genetic Perspective of the Divergence Anonymous 08/10/21 (Tue) 01:20:49 1a27a3 No.14264
File (hide): facf64d90f7d96d...jpg (56.38 KB,334x500,167:250,Genes_Polymorphisms_and_th....jpg) (h) (u)

<https://www.amazon.co.uk/Genes-Polymorphisms-Making-Societies-Perspective-ebook/dp/B099ZTQ2NQ/>

>Our genes determine to a large extent who we are and why we are different from others. In this book, Hippokratis Kiaris explores how various genetic polymorphisms in different ethnic populations may affect the development of distinct cultures and eventually historical decisions. It should be read by anybody interested in history, anthropology, behavior, psychology or genetics. The reader will find clues linking

together these scientific disciplines and how such genetically determined behavioral traits may play an undervalued, as yet, role in shaping historical outcomes.

>The book initially describes some basic concepts on genetics and proceeds with an outline of human evolution, the journey of early humans Out-of-Africa, and the colonization of Earth by different human populations that eventually resulted in the development of different cultures. Then, by focusing on the two major prototype cultural lines, the Eastern and the Western, the author discusses differences in the corresponding civilizations in view of specific genetic polymorphisms that affect behavior and differ in frequencies between people of Asian and European origin. Finally, in view of the contemporary increasing tendency for cultural globalization, the book attempts to predict future trends on cultures and behavioral patterns. In this revised and extended second edition new data are included and new chapters, focusing on how sets of genes, as opposed to individual ones, coexist in different populations and may potentially impact cultural divergence throughout history.

▶ [REQUEST] Farmers or Hunter-Gatherers? The Dark Emu Debate Anonymous
08/10/21 (Tue) 13:16:26 1a27a3 No.14267
File (hide): 387a5ff5b348af7...jpg (43.62 KB,327x500,327:500,Farmers_or_Hunter_gatherer...jpg) (h) (u)

<https://www.amazon.co.uk/Farmers-Hunter-gatherers-Dark-Emu-Debate-ebook/dp/B097Q9NPG2>

>An authoritative study of pre-colonial Australia that dismantles and reframes popular narratives of First Nations land management and food production.

>Australians' understanding of Aboriginal society prior to the British invasion from 1788 has been transformed since the publication of Bruce Pascoe's Dark Emu in 2014. It argued that classical Aboriginal society was more sophisticated than Australians had been led to believe because it resembled more closely the farming communities of Europe.

>In Farmers or Hunter-gatherers? Peter Sutton and Keryn Walshe ask why Australians have been so receptive to the notion that farming represents an advance from hunting and gathering. Drawing on the knowledge of Aboriginal elders, previously not included within this discussion, and decades of anthropological scholarship, Sutton and Walshe provide extensive evidence to support their argument that classical Aboriginal society was a hunter-gatherer society and as sophisticated as the traditional European farming methods.

>Farmers or Hunter-gatherers? asks Australians to develop a deeper understanding and appreciation of Aboriginal society and culture.

▶ [REQUEST] Andrew Durnford: A Black Sugar Planter in the Antebellum South

Anonymous 08/12/21 (Thu) 09:44:55 1a27a3 No.14270
File (hide): 884c1b347e0a4ba...jpg (25.8
KB,334x499,334:499,Andrew_Durnford_A_Black_Su...jpg) (h) (u)

<https://archive.org/details/andrewdurnfordbl00whit>

>Andrew Durnford (born 1800, New Orleans; died 1859, St. Rosalie Plan-tation), Free Man of Color, was born of an English father and a free woman of color. The Louisiana Purchase made him a citizen of the United States. Thomas Durnford, his father, and John McDonogh, a prosperous merchant of New Orleans and Baltimore, were friends and business associates. On Thomas's death Andrew continued the friendship and association (McDonogh was the godfather of Andrew's first son, Thomas McDonogh Durnford). Draw-Ing on McDonogh for credit, Durnford purchased land south of New Orleans In Plaquemines Parish and, with a small cadre of slaves, established a sugar plantation. David O. Whitten's biography of Durnford draws on exten-sive primary materials, including let-ters between the principals, that bespeak not only an active correspon-dence but two extraordinary careers.Reinforced with newspaper ac-counts and court records, the Durnford-McDonogh letters offer an intimate view into the life and work of an antebellum planter and depict the social intercourse of a black man in a society built on black slavery. Facile in English and French, Durnford read widely and commented in letters on works of the day. He journeyed to distant Pennsylvania and Virginia in 1835 to procure slaves and then re-turn with them to his Louisiana plan-tation. Letters between Durnford and McDonogh during the lengthy trip pro-vide a unique travelogue - a black man, in the company of his black bondsmen, traversing the heart of slave country.Had Durnford done no more than build a sugar plantation out of the wilderness with black slave labor, his accounts would be valuable, but he also practiced medicine, recounting his experiences in a journal and in letters to McDonogh. The Durnford volume of-fers singular accounts of American life and labor in the first half of the nine-teenth century. Had he been white, the narrative would be of inestimable value, but because Durnford was black, free, and a medical practitioner, his life stands as a rare example of a man and a culture adjusting to pecu-liar social orders.Noted historian John Hope Franklin sums up this contribution to African American studies: "David Whitten has performed an important service in bringing the life of Andrew Durnford to the attention of students of the antebellum South, of the plantation economy, and of race relations - He has placed us all in his debt and he has set an example for others to fol-low."

▶ [REQUEST] Witches, Feminism, and the Fall of the West Anonymous 08/18/21 (Wed) 15:07:22 1a27a3 No.14280
File (hide): fa537365c202c84...jpg (99.11 KB,907x1360,907:1360,Witches_Feminism_and_the_F....jpg) (h) (u)

<https://www.amazon.co.uk/Witches-Feminism-Fall-Edward-Dutton-ebook/dp/B09CMWTMFR/>

>The archetype of the "witch" is burnt deep into the European psyche, recurring again and again in folklore and fairytales. But is she merely the stuff of fantasy? Roald Dahl warned that witches don't always don black hats and ride on broom sticks. They "dress in ordinary clothes, and look very much like ordinary women. . . . That is why they are so hard to catch."

>In Witches, Feminism and the Fall of the West, Edward Dutton examines the history of witches and witch-hunting in light of evolutionary psychology. Throughout the centuries, witches were ostracized across Europe and often condemned and executed for sorcery and harming children. They generally adhered to a type: witches were low-status,

anti-social, and childless, and their very presence was viewed as poisonous to the community. Dutton demonstrates that witches did, in their way, represent a maladaptive mentality and behavior, which undermined Europe's patriarchal system. When times got tough-that is, when Europe got poorer or colder-the witches were persecuted with a vengeance.

>Today, the evolutionary situation has been turned on its head. The intense selection pressures of the past have been overcome by the Industrial Revolution and its technological marvels. Modern witches survive and thrive in the postmodern West, still possessed by the motivations and dispositions of their sisters of yore. "Sorcery" (nihilism and self-hatred) is no longer taboo but has become a high-status ideology. Roald Dahl was all-too correct. Witches do exist, and they mean to do us harm.

▶ [REQUEST] Empire Eternal: In Defense of Imperialism Anonymous 08/22/21 (Sun) 03:55:34 1a27a3 No.14288>>14327

File (hide): 282065a61da9e91...jpg (21.61 KB,313x500,313:500,Empire_Eternal_In_Defense_....jpg) (h) (u)

<https://www.amazon.co.uk/Empire-Eternal-Imperialism-Sinclair-Jenkins-ebook/dp/B0948GJGTL>

>The men who founded these great civilizations are long gone, but their blood still lives within us. We are called to conquer. Our age, like every other age, is a war of all against all for the domination of space."

>Throughout the 19th and through the early 20th centuries, the European Great Powers established direct control over the majority of the planet, and suzerainty over the rest. Despite the crumbling of those empires under the hammer blows of two world wars and the machinations of the United States and the Soviet Union, the feats by which they were established and the titanic efforts of the brave few that fought to preserve them still reverberate in history. Brave warriors conquered foreign lands, planted their flags, and tried to grow new cultures that mirrored their own.

>Sinclair Jenkins -- writer, thinker, and dissident -- lays out a resolute defense of, and advocacy for, that force of will which made the age of European Imperialism possible. From the conquering of the American West, to the bloody Rif War, to the heroic defenses of Katanga and Rhodesia, Empire Eternal: In Defense of Imperialism is a tour de force of the various chapters of European Imperialism.

>It is said that men did not love Rome because it is great -- Rome was great because men loved her. These pages make it clear that likewise the European empires were not great because of some kind of overwhelming material superiority, but because of the eternal flame that pushed men to sacrifice for them -- a flame that can never be extinguished.

File (hide): 45a8bd038c3962b...jpg (188.84 KB,648x982,324:491,The_Redneck_Manifesto_Amer....jpg) (h) (u)

<https://archive.org/details/redneckmanifesto00goad>

>Culture maverick Jim Goad presents a thoroughly reasoned, darkly funny, and rampagingly angry defense of America's most maligned social group -- the cultural clan variously referred to as rednecks, hillbillies, white trash, crackers, and trailer trash. As The Redneck Manifesto boldly points out and brilliantly demonstrates, America's dirty

little secret isn't racism but classism. While pouncing incessantly on racial themes, most major media are silent about America's widening class rifts, a problem that negatively affects more people of all colors than does racism. With an unmatched ability for rubbing salt in cultural wounds, Jim Goad deftly dismantles most popular American notions about race and culture and takes a sledgehammer to our delicate glass-blown popular conceptions of government, religion, media, and history.

<https://www.amazon.co.uk/Politics-Social-Psychology-Frontiers-ebook/dp/B074CF9XXD/>

>Social scientists have long known that political beliefs bias the way they think about, understand, and interpret the world around them. In this volume, scholars from social psychology and related fields explore the ways in which social scientists themselves have allowed their own political biases to influence their research. These biases may influence the development of research hypotheses, the design of studies and methods

and materials chosen to test hypotheses, decisions to publish or not publish results based on their consistency with one's prior political beliefs, and how results are described and dissemination to the popular press. The fact that these processes occur within academic disciplines, such as social psychology, that strongly skew to the political left compounds the problem. Contributors to this volume not only identify and document the ways that social psychologists' political beliefs can and have influenced research, but also offer solutions towards a more depoliticized social psychology that can become a model for discourse across the social sciences.

▶ [REQUEST] The World in Flames: The Shorter Writings of Francis Parker Yockey Anonymous 09/18/21 (Sat) 11:58:56 2beb52 No.14328
File (hide): ba3d8aad14b0fa3...jpg (149.68 KB,693x1024,693:1024,The_World_in_Flames_The_Sh....jpg) (h) (u)

<https://anonym.to/?https://counter-currents.com/2020/06/the-world-in-flames-order/>

>The World in Flames collects all of Francis Parker Yockey's surviving essays and correspondence, including recent and never-before-published archival discoveries. The volume is edited with an Introduction and annotations by Kerry Bolton, the foremost expert on Yockey's life and thought. The World in Flames is an indispensable volume for understanding America's most important anti-liberal thinker.

>Francis Parker Yockey (1917--1960) was born in Chicago. After studying at the University of Michigan, Georgetown University, and the University of Arizona, he graduated cum laude from the University of Notre Dame Law School in 1941. In 1946, Yockey worked as an attorney for the Nuremberg Trials in Germany. In 1948, Yockey published Imperium: The Philosophy of History and Politics (2 vols.) under the pen name Ulick Varange. In 1949, Yockey published a manifesto, The Proclamation of London. In 1953, he published The Enemy of Europe. But Yockey was not just a

political theorist. He was a political actor. For the remainder of his life, Yockey traveled the world, using a bewildering array of passports and fake identities, building a network of contacts with National Socialist exiles, Arab nationalists, Marxists, and Third World liberation movements. His ultimate aim was a unified Europe, free to pursue its destiny without the domination of outside powers. He committed suicide on June 16, 1960 in the San Francisco Jail, where he was being held on charges of passport fraud. Since his death, Yockey has been recognized as America's foremost anti-liberal thinker and exerts a steady and growing influence on the New Right.

<https://www.amazon.co.uk/gp/product/B007678VYM/>

>Thomas Carlyle was the most influential man of letters of his day, and his vivid account of the French Revolution remains one of the classic histories. Even George Eliot, no admirer, wrote: 'It is an idle question to ask whether his books will be read a century hence; if they were all burnt as the grandest of Suttles on his funeral pyre, it would only be like cutting down an oak after its acorns have sown a forest.'

>Simon Heffer draws upon previously unavailable papers to reassess a magnificent, defiant and often lonely individualist whose idiosyncratic and passionate books brought him universal fame.

"Pawns in the Game"

This book was considered required reading by law enforcement personnel / Feds in the 1950s.

It talked about a generational global cabal of bankers hell-bent on creating a one world government.

It includes some historical facts on the French revolution and the multi-national bankers involved in creating it.

It names names and organizations and it's a good starting point for un-pozzed research before the heavy dis-info campaigns started.

There's are other newer editions that I haven't read yet.

▶ [REQUEST] This Horrid Practice: the Myth and Reality of Traditional Maori Cannibalism Anonymous 09/29/21 (Wed) 23:46:11 2beb52 No.14345

File (hide): 602a8d827fef373...jpg (50.67

KB,332x500,83:125,This_Horrid_Practice_The_M....jpg) (h) (u)

<https://www.amazon.co.uk/This-Horrid-Practice-Traditional-Cannibalism-ebook/dp/B07PB4JRZK>

>'Though stronger evidence of this horrid practice prevailing among the inhabitants of this coast will scarcely be required, we have still stronger to give.' - Captain James Cook.

>This Horrid Practice uncovers an unexplored taboo of New Zealand history - the widespread practice of cannibalism in pre-European Maori society. Until now, many historians have tried to avoid it and many Maori have considered it a subject best kept

quiet about in public.

>Paul Moon brings together an impressive array of sources from a variety of disciplines to produce this frequently contentious but always stimulating exploration of how and why Maori ate other human beings, and why the practice shuddered to a halt just a few decades after the arrival of Europeans in New Zealand.

>The book includes a comprehensive survey of cannibalism practices among traditional Maori, carefully assessing the evidence and concluding it was widespread. Other chapters look at how explorers and missionaries saw the practice; the role of missionaries and Christianity in its end; and, in the final chapter, why there has been so much denial on the subject and why some academics still deny that it ever happened.

>This Horrid Practice promises to be one of the leading works of New Zealand history published in 2008. It is a highly original work that every New Zealand history enthusiast will want to own and read.

<https://www.amazon.co.uk/Perversion-Normality-Marquis-Sade-Cyborgs-ebook/dp/B09BLK58M5>

>In The Perversion of Normality, with full and reliable documentation, Kerry Bolton examines the anti-life character of the 'progressive' era. While arising from an historical process, certain movements and ideologies have been deliberately constructed to take advantage of the West's social decay to create a brave new world. Some people flourish amidst decay, and among those are a global oligarchy and the dysfunctional types the former promotes in the name of 'human rights', 'social justice', and 'equality'. The main obstacles to their 'new world order' are what they call the 'primary ties': the traditional family bond, faith, homeland, culture and ethnicity. In order to eliminate these, there is a well-financed assault, using feminism, identity politics, transgenderism, population control, sexology, 'human relations training', ad infinitum. Of particular service have been the social sciences, including what is called 'Cultural Marxism'.

>Turning normality on its head, what was until recently regarded as aberrant is now the 'new normal'. The final aim is to create a one-world state populated by 'transhuman',

'postgender' cybernetic drones in a scenario reminiscent of the most bizarre science-fiction film.

▶ [REQUEST] Antifascism: The Course of a Crusade Anonymous 10/14/21 (Thu)
08:46:15 2beb52 No.14370
File (hide): f754d3ed7a56b37...jpg (33.37
KB,336x500,84:125,Antifascism_The_Course_of_....jpg) (h) (u)

<https://www.amazon.co.uk/Antifascism-Course-Crusade-Paul-Gottfried-ebook/dp/B08YXF4V7F/>

>Antifascism argues that current self-described antifascists are not struggling against a reappearance of interwar fascism, and that the Left that claims to be opposing fascism has little in common with any earlier Left, except for some overlap with critical theorists of the Frankfurt School. Paul Gottfried looks at antifascism from its roots in early twentieth-century Europe to its American manifestation in the present. The pivotal development for defining the present political spectrum, he suggests, has been the replacement of a recognizably Marxist Left by an intersectional one. Political and ideological struggles have been configured around this new Left, which has become a dominant force throughout the Western world.

>Gottfried discusses the major changes undergone by antifascist ideology since the

1960s, fascist and antifascist models of the state and assumptions about human nature, nationalism versus globalism, the antifascism of the American conservative establishment, and Antifa in the United States. Also included is an excursus on the theory of knowledge presented by Thomas Hobbes in Leviathan.

>In Antifascism Gottfried concludes that promoting a fear of fascism today serves the interests of the powerful---in particular, those in positions of political, journalistic, and educational power who want to bully and isolate political opponents. He points out the generous support given to the intersectional Left by multinational capitalists and examines the movement of the white working class in Europe—including former members of Communist parties—toward the populist Right, suggesting this shows a political dynamic that is different from the older dialectic between Marxists and anti-Marxists.

I am looking for books that describe and explain various types of social engineering tactics used in last two centuries in different countries (primarily USSR and other

communist regimes, USA, post-WWII Germany and Europe, Japan, South Korea). The books have to be popular enough and have valid-enough sources as support for claims made in them.

Does anyone know any such books?

If not, any high quality intro books on social engineering in general will also be an acceptable match.

Information Warfare Tools & Services

BASIC PROCEDURES

Gather Everyone In the AM and HIT 'Them' With Everything You Got in the PM! [POST STORM - THE WAVE]

[1] MEME MEME and MEME some MOAR! Stay Focused on Current #HOTTOPICS

[2] Pick 2-3 hashes from <https://botsentinel.com> and use them to help get your #HASH out.

[3] Post @ 10-11Am | 12-3Pm | 6-9Pm EST

[4] Always Try to Post Meme/Cap/Vid/Article (Not just plain text)

[5] Use .@them to respond to all their following.

[6] Remember to be Quirky in your posts and ask question instead of making statement.

[7] RT other's tweets and Report Bots (New account, no followers, lots of RT's)

[8] ReTweet LASERFAST. Use <https://tweetdeck.com>

[9] Information Warfare <https://controlc.com/06508634> [ARCHIVE OFFLINE]

DIG -> MEME -> PRAY [ALL 3]

Canada to require COVID vaccines for air, train and ship travelers

The Canadian government announced Friday that commercial airline travelers will soon need to be vaccinated against the coronavirus.

The sweeping mandate, which also includes passengers on cruise ships and interprovincial trains, will go into effect “[a]s soon as possible in the fall and no later than the end of October,” Transport Minister Omar Alghabra said in a statement.

Alghabra added that those working in “the federally regulated air, rail, and marine transportation sectors” would face the same requirement, while other federal government employees would need to be vaccinated as early as the end of September.

The government also said it “expects” so-called Crown corporations --- like the Bank of Canada, the Canadian Broadcasting Corporation and Canada Post — to mandate vaccinations for their employees and promised to “work with these employers to ensure this result.”

Canada’s federal government is the country’s largest employer, with more than 1.2 million workers.

“After months and months of deploying these vaccines literally into millions of Canadian arms, we see how effective they are. We also see what other workplaces and other public service agencies around the world have done,” Intergovernmental Affairs Minister Dominic LeBlanc told reporters. “It is very much a continuation of our government’s efforts to do whatever it takes for as long as it takes to protect the health and safety of Canadians.”

Canada has one of the highest vaccination rates in the world, with more than 81 percent of its population aged 12 and up having received at least one dose and 71.5 percent

considered fully vaccinated, according to data from CTV News.

However, despite the success of Canada's vaccine drive, Alhabra said there was room for improvement.

"We need to reach as many Canadians as we possibly can," the minister said. Cases are starting to creep up again in what Canada's top health official dubbed a fourth wave this week.

Canada opened its border to fully vaccinated Americans Monday, 17 months after the frontier was shut to non-essential travel in the early days of the COVID-19 pandemic, and planned to reopen to visitors from around the world Sept. 7

By contrast, the Biden administration has said it will keep its side of the US-Canada border closed until at least Aug. 21.

Air Canada, the country's largest airline, called the vaccine mandate "a welcome step forward in the evolving measures to protect the health and safety of airline employees, customers and all Canadians."

Broward County Mandates Vaccines For Poll Workers

The Most Important Story You Will Read Today

Broward County Supervisor of Elections Joe Scott said in a letter to potential 2021 special election poll workers that they must show proof of vaccination. Patriots are challenging Joe Scott's authority to unilaterally make such a decision. Scott told people in the letter "Please bring evidence of your inoculation against COVID-19 (two doses of the Moderna or Pfizer vaccines, or one dose of the Johnson & Johnson vaccine), with you to your upcoming training class." Here is the tyrannical letter obtained by patriot philanthropist Chris Nelson:

Pfizer-BioNTech and Moderna Poised to Make Billions on COVID-19 Boosters

Moderna and the Pfizer-BioNTech alliance could reap billions from COVID-19 booster shots in the coming years, in what analysts and investors say could be a market comparable to the \$6 billion in annual sales for flu vaccines.

Pfizer, its German partner BioNTech, and Moderna have together locked in over \$60 billion in sales of their respective COVID-19 vaccines through 2022, with the agreements covering initial doses and booster shots, according to Reuters.

Analysts cited by the outlet predict revenues of over \$6.6 billion for the Pfizer-BioNTech alliance and \$7.6 billion for Moderna, chiefly from booster shots. Over a longer-term horizon, they predict the market will eventually settle at around \$5 billion or more in annual revenues as rival drugmakers enter the space.

Moderna did not immediately respond to a request for comment on booster shot sales projections, while a Pfizer spokesperson said the only forecasts the company is providing are 2021 projections for \$33.5 billion in COVID-19 vaccine revenues.

Moderna President Stephen Hoge said in an interview last week that it is unclear what the market forces driving COVID-19 vaccine sales will be going forward, adding that, “at some point, this will become a more traditional market---we’ll look at what are the populations at risk, what value are we creating, and what are the number of products that serve that value. That will ultimately impact price.”

Pfizer executives said during the company’s second-quarter earnings call that they believe a third dose will be necessary 6 to 8 months after vaccination, and at regular intervals thereafter.

The vaccine makers have said evidence of waning antibody levels in fully vaccinated people after six months, along with an increasing rate of breakthrough infections in regions affected by the Delta variant, support the need for boosters.

It comes as U.S. regulators on Thursday authorized Pfizer-BioNTech’s and Moderna’s COVID-19 vaccine booster shots for certain vulnerable and immunocompromised people. The Food and Drug Administration’s (FDA) approval came in the form of an update to the existing emergency use authorizations for the two mRNA vaccines. Several other countries, including Israel and France, have similar recommendations on booster shots.

The FDA’s move was followed by a Friday decision by a key medical advisory panel to the Centers for Disease Control and Prevention (CDC), which unanimously voted to recommend the boosters to immunocompromised Americans. The approval of the Advisory Committee on Immunization Practices clears the way for a final nod by CDC, expected later Friday, which would allow for near-immediate rollout of the boosters.

WHO to Set up New Group to Trace Virus Origins

GENEVA---The World Health Organization (WHO) said on Friday it was setting up a new group to trace the origins of the coronavirus, seeking to end what it called “political point scoring” that had hampered investigations.

The inability of the WHO to say where and how the virus began spreading has fueled tensions among its members, particularly between China, where COVID-19 cases were first identified in Wuhan in late 2019, and the United States.

The WHO called for all governments to cooperate to accelerate studies into the origins of the COVID-19 pandemic and “to depoliticize the situation”.

It specified that a new advisory group called the International Scientific Advisory Group for Origins of Novel Pathogens would support “the rapid undertaking” of further studies.

“We should work all together. You, me, everyone wants to know the origin of worst pandemic in a century,” WHO spokesperson Fadela Chaib said at a U.N. briefing on Friday.

Washington on Friday welcomed the WHO plan, noting the “emphasis on scientific-based studies and data driven efforts to find the origins of this pandemic so that we can better detect, prevent, and respond to future disease outbreaks.”

President Joe Biden in late May ordered aides to find answers on COVID-19 origins and report back in 90 days.

In its final report, written jointly with Chinese scientists, a WHO-led team that spent four weeks in and around the city of Wuhan in January and February said that the virus had probably been transmitted from bats to humans through another animal. It said that a leak from a laboratory was “extremely unlikely” as a cause.

That's true about pawns. As we are. But there's an upside. If you play enough chess eventually you'll make a pawn a rook, bishop, or knight. I think you have to be from England or from Gay to become a Queen. This is America.

Biden administration warns of threat from anti-lockdown 'extremists' & terrorist sympathizers marking 9/11 anniversary

The US Department of Homeland Security (DHS) issued a terror warning that appears to put Americans pushing back against Covid-19 restrictions on par with jihadists who might strike on the anniversary of the September 11 attacks.

A DHS bulletin published Friday said that "anti-government, anti-authority violent extremists" may try to "exploit the emergence of Covid-19 variants by viewing the potential re-establishment of public health restrictions across the US as a rationale to conduct attacks."

The Covid-19 pandemic has stoked "societal strains and tensions," the DHS said, "driving several plots by domestic violent extremists, and they may contribute to more violence this year."

The terrorism warning, which runs through November 11, cited a host of other potential threats, including violent bigots who may perpetrate mass-casualty attacks, "though there are currently no credible or imminent threats identified."

Other potential attackers include "domestic violent extremists" and other "ideologically-motivated" individuals who may be triggered by "conspiracy theories" on such issues as "perceived election fraud," DHS said.

"Law enforcement have expressed concerns that the broader sharing of false narratives

and conspiracy theories will gain traction in mainstream environments, resulting in individuals or small groups embracing violent attacks to achieve their desired objectives,” the bulletin claimed.

President Joe Biden’s administration has elevated domestic “extremism” as a top security threat in the wake of the January 6 riot at the US Capitol. Democrat politicians have hyped the riot as a racially motivated “insurrection,” and Biden in April called it “the worst attack on our Democracy since the Civil War.”

Critics pushed back against the claim, noting such previous tragedies as the 9/11 attacks in 2001, the Japanese attack on Pearl Harbor in 1941, four presidential assassinations and -- more recently -- race riots that torched cities and left dozens of people dead last summer.

On Friday, however, the DHS again raised the specter of January 6. DHS intelligence chief John Cohen told CNN that online rhetoric is similar to the chatter seen before the Capitol riot. He cited such “extremist” comments as “the system is broken,” “take action into their own hands,” and “bring out the gallows.”

DHS also noted that, with the 20-year anniversary of the September 11 attacks approaching, Al-Qaeda recently published the first issue of its English-language magazine in more than four years. That move “demonstrates that foreign terrorist organizations continue efforts to inspire US-based individuals susceptible to violent extremist influences,” the agency said.

The advisory made no mention of possible direct attacks by foreign terrorists. While Republican lawmakers have continuously raised concerns about potential terrorists infiltrating the US through the nation’s southern border, US Customs and Border Protection sought to downplay the perceived threat. Announcing in March that two Yemeni men who were on the FBI’s terrorism watchlist were apprehended as they tried to cross into the US, the CBP described such incidents as “very uncommon.”

Israel is on fire. High vax nation showing explosive exponential rise in cases. ADE is all but confirmed

Easily on track to break their all time highs. They will claim 'fewer deaths' but that could only be temporary until ADE actually kicks in.

Currently any 'fewer deaths' or 'less severe cases' is due to 2 main things:

1) Delta is 10x weaker than Alpha, so 'no shit'

2) Israel have been using highly experimental and effective new treatments for the most severe cases. So, revolutionary new treatments do the saving, not the vax.

Whole thing is a complete scam.

[https://davejanda.com/oann-hammer-score ... mcinerney/](https://davejanda.com/oann-hammer-score...mcinerney/)

ok anon, you have spent quite a bit of effort at posting all these proofs, so lets have a
look shall we at what you have posted?

1) mainly the postemail articles and court files.

A) from what i know and his confessions, he stated he had been set up on bogus
charges by mulptiple bad actors, fbi agents as well as judges and also imprisoned.

This is Sharon Rondeau, will dig into her but she looks like a crazy bitch?

2) Larry logan is C.I.A goon and called him out when he first ran the story for GWP.

anons like to dig, we do not take articles as gospel no matter who posts them.

3) If Montgomery (Mcgreevy actually) is comped, do you think all those working with Mike lindel that he hired would not have sussed him out. Mike is solid but he knows his limitations as we all do, this is why we rely on each other to find the truth,

<https://www.thepostemail.com/tag/sharon-rondeau/>

OVERALL, DOES NOT MATTER, IT IS CLEAR AS FUCKING DAYLIGHT THAT THE ELECTION WAS HIT FROM MULTIPLE ANGLES ON THE GROUND AND VIA CYBER. SO FCUK OFF WITH THIS LARGE ATTEMPT AT TRYING TO FUCK UP THE LONG AND EXHAUSTIVE EFFORT

P.S NOW YOU HAVE 50 STATE LEGISLATORS WORKING TOGETHER.

MOAR PANIC

The numbers of COVID patients in hospitals has gone way up. What they won't tell us though is that this is most likely due to the vaccine. Viruses don't typically flare up in the summer as they tend to thrive in cold weather, but we've had a significant increase in people getting vaccinated that correlates with the surge in COVID cases. COVID was on the decline prior to the vaccine being widely disseminated, even during the winter months. Also, I have seen where the media is running stories about children's units being at full capacity. The implication is that children are suddenly getting COVID at an alarming rate. However, most of the uptick in hospitalized children is due to a surge in RSV cases, not COVID. My wife is an RN in the emergency room (since March) and was on a COVID unit prior to that and she said she has never seen a single child test positive for COVID. I'm no doctor but I suspect the surge in RSV cases among children has a lot to do with wearing masks and being isolated due to lockdowns for an entire year. I believe this took a huge toll on everyone's immune systems (those who complied anyway) and now children, who are more prone to having a bad outcome with RSV, a very serious respiratory condition for children and the elderly, are paying the price. I think the RSV may well tie in with the vaccines as well. Mommy gets vax, vax causes respiratory issues, respiratory issues are contagious, little Johnny gets exposed, little Johnny gets RSV.

Pretty much anon. They call anything like the common cold covid and all of a sudden those hospitals and state governments get a lot more funding. Of course people are getting their lungs blown out from proper procedures and the vaccine itself is kicking in pretty hard right now. Will get really bad in the next few months. Careful out there driving, it's getting worse. I'm worried about planes falling from the sky.

Reminds me of a dream I had. Quite horrible. Giant steel beams in the shape of twisted crosses raining hellfire on everyone. Most people were some type of rabid zombie.

I prefer the sex dreams tbh

Citizen Hearing on UFO Disclosure

UFOs - Pilots & Aviation Experts with Col. Richard French, Maj. George Filer, John Callahan, Jim Courant and Steve Allen

Held at the National Press Club, Washington D.C. April 29th - May 3rd, 2013

The Citizen Hearing on UFO Disclosure set out to accomplish what the U.S. Congress had failed to do for forty-five years - seek out the facts surrounding the most important

issue of this or any other time - evidence pointing toward an extraterrestrial presence engaging the human race.

Forty researchers along with military/agency/political persons of high rank and station came to the National Press Club in Washington, DC to testify to six former members of the United States Congress.

The main ballroom of the National Press Club was configured to resemble a Senate hearing room. There were press areas, an audience area, witness tables and committee tables. Protocols for congressional hearings were followed as closely as possible during the testimony. Committee members received written statements from witnesses, heard oral statements and asked whatever questions they wished about the subject matter at hand.

Hearing witnesses testified for thirty hours over five days in five morning and five afternoon sessions, each composed of two panels of witnesses, each panel lasting approximately ninety minutes.

The Citizen Hearing on UFO Disclosure was a historic event. We are excited to be able to make the footage available, and allow these brave testimonies to become part of the public record on the topic of UFOs.

Citizen Hearing on Disclosure IF THE CONGRESS WON'T DO ITS JOB, THE PEOPLE WILL. <http://www.citizenhearing.org>

BEWARE of MAJOR FALSE FLAG attempts

Looks like one or more of the ABC agencies are planning to stage another domestic false flag attack to be pinned on innocent Americans...

Why wont they tell us who planted those bombs @ the Capital on Jan 6th?

Silence...

Q: Why are they threatened now?

A: They have lost all control over Public Opinion.

Without a narrative of FEAR to push, they have no power over you

They want you controlled.

They want you enslaved.

They want you divided.

They want you dependent!

You are what matters most.

UNITED NOT DIVIDED.

You awake, thinking for yourself, is their greatest fear.

Did we catch this?

<https://libertyonenews.com/8-hard-drives-3-computers-and-several-usb-flash-drives-were-taken-from-elliott-kerwin-now-he-has-mysteriously-disappeared/>

In December, the FBI raided the home of the mysterious Elliot Kerin and they seized 8 hard drives, 3 computers, and several USB flash drives in Arizona. Then a funny thing happened. All of the seized material and Elliot Kerin have all disappeared from sight. What was the goal of the raid? Was it to seize evidence or to hide it. Surely, nine months after the fact, we should know something.

It's notable to add that at the same time, AZ GOP Senators were fighting desperately to bring the legislature back into session after being adjourned Sine Die due to COVID19 lockdowns per Gov. Ducey.

The GOP Times wrote,

"The Arizona legislature is currently fighting to call the legislature back into special session to consider withholding their Electoral college votes, to hold a full forensic audit of Dominion voting machines, and to decertify the election results. It is interesting that this story was withheld from the public eye until now as it only adds more weight to

assertions that the election in Arizona was compromised.”

AZCentral also reported that investigators were specifically searching for, “records, information and communications related to:

Login credentials and accounts.

Voter registration records and information, including protected voters’ information.

The transfer, sharing, or dissemination of voter registration records and information, including protected voters’ information.

Unauthorized access to the office’s website and computer systems.

Attempts or threats to damage computer systems.”

In the morning hours of Nov 5, 2020, AZ Federal Agents raided a two-story residence in Fountain Hills

They were executing a search warrant on the residence of Elliot Kerwin, a 56-year old IT Expert.

They left with these items:

8 hard drives, 3 computers, & a bag of USB sticks

--- Columnated Ruins- I Guess I'm a Fascist now??? (@DominofromAZ) July 16, 2021

Here's what we know about Mr. Kerwin.

In April 2011, Kerwin received police attention after he send out "spoof" emails ahead of a local election. At the time he was an IT administrator for the City of Ashland, Wisconsin.<https://t.co/LLD9sZNU24>

/

Kerwin initially denied any involvement, & led police through a series of government servers in search of the "real culprit" before conceding he had sent the emails himself from the cities own system. Kerwin claimed this was meant as an April Fool's joke & resigned in June.

There's so much I can't confirm.

I have yet to find proof the two companies @Forbes alleges Kerwin created, (Desert Oasis Technical, Desert Oasis Tactical) ever existed. I would assume that's what he was doing following his 3/19 exit from @godaddy, but that would be conjecture

--- Columnated Ruins- I Guess I'm a Fascist now??? (@DominofromAZ) July 17, 2021

Now, the question is what happened to all of the evidence, and what happened to Elliot Kerin? Both have disappeared from sight with no explanation. What is Christopher Wray hiding? He personifies the Deep State and the evidence is probably in a safe hiding space waiting for the Durham Report that we will never see.

>>14348216

Agreed. Crowds are harder to control than you might think. There is so much cognitive dissonance among the general population and, due to a inadequate mental health resources in this country, some patients that come in are extremely difficult and cause the care providers to have to do so much more work, and not for whatever health problems they're experiencing but just to try and contain them because of their erratic behavior. They can be extremely difficult to deal with and dealing with them takes up so much of the care providers time and effort, that it creates a bottleneck. The next time you or someone you know waits n an ER for several hours, you probably have some crazed junkie(s), who should really be in a mental health facility, to thank. Sad but oh so true.

<https://www.zerohedge.com/covid-19/newsom-announces-nations-first-vax-or-test-rule-all-teachers-and-staff>

Newsom Announces Nation's First Vax-Or-Test Rule For All Teachers And Staff

This is interesting. I have a college buddy the practices law in COMMIEFORNIA, and he tells me that NEWSOM is shitting bricks due to the recall.

After all, this little faggot, that everyone HATES is going up a conservative TRANNY (JENNER,) and the CONSERVATIVE NIGGER (Elders).

Polling suggests that COMMIEFORNIA is going to become very conservative, either way, and the LITTLE FAGGOT CUNT, NEWSOM is shitting bricks because it would seem that should TRANNY or NIGGER become GOVERNOR, all of his TOADIES will be tossed out, and CRIMINAL CHARGES could be on the menu.

How delightful.

Summary of Terrorism Threat to the U.S.

4

Homeland

1 2 1 3 4 1.8. nc-2.8

The Secretary of Homeland Security has issu[ed]

1 3 3 3 nc-3 4

a new National Terrorism Advisory System

sps 4 nc-1 3 3 3.8

(NTAS) Bulletin regarding the current heightened

threat environment across the United States. The Homeland continues to face a diverse and challenging threat environment leading up to and following the 20th Anniversary of the September 11, 2001 attacks as well religious holidays we assess could serve as a catalyst for acts of targeted violence. These threats include those posed by domestic terrorists, individuals and groups engaged in grievance-based violence, and those inspired or motivated by foreign terrorists and other malign foreign influences. These actors are increasingly exploiting online forums to influence and spread violent extremist narratives and promote violent activity. Such threats are also exacerbated by impacts of the ongoing global pandemic, including grievances over public health safety measures and perceived government restrictions.

Could be dependent upon whether the hospital with longer wait times has specific care ie: cath lab, trauma center, stroke team, etc. The regional trauma center in my area has all the above services which most other hospitals do not offer. Being a medic if we have such cases, we try to transport to that hospital, unless the patient demands transport to another local facility.

If you STUPID MUTTS have not figured it out yet, let me BOTTOM LINE IT FOR YOU.

1. No ONE, and I MEAN NO ONE, is going to save you.
2. THE JEWS OWN YOUR STUPID ASS NO MATTER WHAT YOU THINK.
3. THE ONLY PERSON THAT WILL SAVE YOU, is YOU!

PREPARE NOW.

SHIT IS GOING TO GET REAL, and I AM NOT FUCKING AROUND.

Once the VACCINE damage starts to make its' mark know, (EARLY TO LATE FALL,) shit is going to go off the rails LIKE YOU NEVER THOUGHT POSSIBLE.

PREPARE, PREPARE, PREPARE.

Food. Water. Shelter, etc. DO NOT FORGET YOUR PETS!

It is about to get VERY FUCKING UGLY.

You can believe in TRUMP, or BIDEN, or SOME OTHER JEW or JEW PUPPET, all you want.

BE RESPONSIBLE, NOW, while you have the time. YOU CAN DO THIS ON THE CHEAP.

Think of things people need...

LIGHTERS.

TOILET PAPER.

DIAPERS.

ASPIRIN.

BUTANE, PROPANE, and other types of FUEL.

CIGARETTES, ANY BRAND.

CANNED GOODS.

Hopefully, it won't get as bad as some people have told me, but it won't kill you to

prepare.

Artist's name is Benjamin Solari Parravicini

Argentina's version of Nostradamus but newer

Draws pics of his visions

Cataclysm in pic looks similar to Koidu mine holes

Text on drawing correlates to Parravicini's passage numbered 201

As in Event 201

Which is interesting when you factor Koidu's involvement with the NIH and Bill Gates during the 2014 Ebola outbreak

Illuminati: Jesuits, Alumbrados, and the Jewish Pharisees

The “Illuminati” are a secret organization purportedly founded by a trained Jesuit named Adam

Weishaupt in 1776. As I will explain, it was not a coincidence that the Illuminati arose just

three years after Pope Clement XIV’s suppression of the Jesuits in 1773.

Weishaupt was a Jew and a professor of canon law at Ingolstadt University, which was a Jesuit

University and the center of the Jesuit counter-reformation. Alberto Rivera, a former Jesuit

priest, stated that the occult Illuminati organization was not founded by Weishaupt, as many

believe, but in fact was established long before Weishaupt.

The Illuminati is in fact a reincarnation of the ancient Alumbrados, whose one time leader was

Ignatius of Loyola, the founder of the Jesuits.

The Alumbrados and indeed the Illuminati trace their history back to the pharisees.

19 FEB 2021

REQUIRED VIEWING! Dr. Sherri Tenpenny gives VERY important information!

She talks about instances of hyper-immune response in test animals during previous attempts

at coronavirus vaccines, like SARS and MERS, which has been a persistent problem.

All seems well for awhile, until the animals are exposed to the wild mutated virus. To her,

it's clear that the same will happen with humans.

Dr. Tenpenny and other scientists predict that millions may die from the vaccine but it will

be blamed on a new strain of COVID -- to make an argument for even MORE deadly vaccines.

We're at a critical juncture in time for all of humanity on a lot of different levels. And we are past the time of hand-holding, pussy-footing around, being careful to not offend anybody and being so gentle with the snowflakes -- we just can't do it anymore...

We've been doing these vaccinations in America for a month. And in 30 days, we have over

40,000 adverse events reported to the Vaccine Adverse Event database...we have over 3,100 cases

of anaphylactic shock, we have over 5,000 neurological reactions, which can range from headaches, to numbness and parasthesias, to headaches, to dizziness to vertigo, to feeling

like you can't feel your hands and your feet -- in 30 days!

And it's been estimated that less than 10% of adverse reactions that occur are reported to

theirs...

Can you think of one single product, in any industry -- ANY industry -- for as long as products have been made on the planet, that within 30 days, we have 40,000 people complaining

of side effects -- that not only is still on the market but is full-court-press and we've got paid actors telling us how great they are for getting their vaccine.

And we're offering people \$500 if they will just get their vaccine. And we've got nurses and

doctors going, 'I got the vaccine! I got the vaccine!' Well, they're not going to be so happy

when they start to get their Bell's Palsy, when they start to get their neuropathies, when they get their cardiac arrhythmias, when they get their ITP, their autoimmune reaction that

causes them to die of a blood disorder, they're not going to be so happy then.

But we're never going to see pictures of those people!

Biden should have all people receiving unemployment benefits and welfare from the government no longer qualify for said benefits unless they get the vaccine. Before you respond with your outrage, just know that I don't care about your opinion. I'll assume you're one of the ones that refuses to take care of yourself and the ones for which you are responsible. People need to wake up, so let's turn up the heat.

Learning Lessons from the Taliban Opium Ban

01 March 2005Article

A response to: "Where Have All The Flowers Gone? Evaluation Of The Taliban Crackdown Against Opium Poppy Cultivation In Afghanistan", by Graham Farrell and John Thorne

Special Focus: The Taliban and Opium -
www.sciencedirect.com/science/journal/09553959

Authors

Martin Jelsma

Programmes

Drugs & Democracy

The Taliban opium ban in 2000/2001 had, there is no doubt, the most profound impact on opium/heroin supply in modern history, as the authors argue. Exogenous global causes can indeed be eliminated as explanations. It was a rare historical moment that allowed almost absolute compliance in the south of the country, with hardly any direct enforcement or punishment required. From the eastern regions, where Taliban control was far from absolute, several cases of disobedience were reported, largely resolved by means of negotiations and pay-offs to local war lords. By harvest time in spring 2001, the effectiveness of the ban was already confirmed beyond any doubt, and astonished the international community at the time. (Major Donors mission, 2001). Bernard Frahi, then head of the office in Pakistan of the United Nations Office on Drugs and Crime (UNODC, at the time operating under another name but for the purpose of consistency and ease of reading UNODC is used throughout this text), applauded the success of the opium ban: "This is the first time that a country has decided to eliminate in one go - not

gradually - these crops on its territory," and called it "one of the most remarkable successes ever" in the UN drug fight. Sandeep Chawla, head of UNODC research cautioned later, however, that "in drug control terms it was an unprecedented success, but in humanitarian terms a major disaster" (Transnational Institute, 2001).

Trump not back in office Aug. 13 despite QAnon, MyPillow predictions

“As with all good cults, expect the goalposts to shift fast. Expect one missed deadline from a false conspiracy to just bleed into another. Because a significant chunk of the American public has collectively lost its mind,” says Mehdi Hasan.

Aug. 13, 2021

>I had NO idea they put synthetic estrogen in the liner of canned foods.

it's NOT synthetic estrogen. it's plastic. the chemicals used in the mfg of plastics were chosen for ENTIRELY unrelated reasons. it just happens that SOME of them bind to estrogen receptors on cells. but it was not by design. it has less to do with a secret agenda and more to do with the fact that estrogen receptors are sluts, and bind to thousands of chemicals, both synthetic and natural.

Americans were the oppressed who wanted to be free of tyranny. My lineage from both sides were dirt poor. Freedom allowed them to prosper over time with great effort and little comfort. I have zero respect for capable people that think they are owed something. We were given nothing. We stole nothing. Yet I am now hated for my color even though my family carved what we had out of the dirt of this land. I could show you homestead papers from Teddy Roosevelt. One of my ancestors came over on the Mayflower. No slaves, no handouts. Just blood, sweat, and tears. When they come for us we will stand and fight. God bless the rest of you who stand with us.

Rather than going directly to the issue of macro-economic impact of rapidly increasing minimum wage, you're still looking for loopholes or work-arounds..

So everyone makes \$16/hr and reduces to 35/hrs a week happily while minimum wage is \$25/hr?.. prices go up.. employers resist offering full time positions?

Clown-world economics.

No, there are idiots and not-very-productives.. it's just the truth.. best to come to terms with it.. I was once among them for longer than I needed to be.. if you find yourself among them, you can probably do better if you want to... We can gradually increase minimum wage and assist these people with our compassion.. but there's no way of truly increasing their value.. to attempt such decreases the value of the currency by which their time is valued.

>.

The biggest "thing" ready to drop is Wall St, DJ has been melting up toward 36,000... now the number itself is not why it should drop, it represents companies selling shares at unheard of bubble-o-matic price-to-earnings ratios.

Invest in a share at, say, \$20 because it pays annual dividends of 33cents. That means 60 years to repay your investment... Deal?

It is madness, a giant ponzi, a facade, and it is a facade painted and polished and presented 5 days a week by the Fed buying trillions of shares etc.

NUTS!

>sweet potatoes are an excellent comparison to a tin can intentionally lined with a BPA-based polymer

the plastic can liners are NOT BPA based, they contain a tiny fraction of a percent of BPA, and it's purpose is to render the plastic more amenable to the manufacturing process at a minimum cost. the driving factor was profit. or call it greed. if a cheaper

and more readily available alternative to BPA existed, they would have used that, irrespective of whether or not it was an estrogen mimic.

EVERYTHING is NOT a conspiracy. fuckwits like you make anons look retarded.

CodeMonkeyZ, [13.08.21 22:43]

https://www.gjsentinel.com/news/western_colorado/griswold-election-office-cameras-turned-off-before-security-breach/article_c7e03b52-fbae-11eb-a98f-07eb01a467bb.html

<https://t.me/CodeMonkeyZ/1142>

CodeMonkeyZ, [13.08.21 22:44]

If the cameras can be shut off in an election center and it isn't discovered for months until Mike Lindell's Cyber Symposium, then how many cameras in other districts were shut off and still aren't discovered?

CodeMonkeyZ, [13.08.21 22:46]

If bios passwords can allegedly be stolen in one district, how many other districts could have stolen bios passwords?

CodeMonkeyZ, [13.08.21 22:46]

If the only thing stopping these Dominion machines from accessing the internet is the BIOS passwords, then how many Dominion machines are connected to the internet RIGHT NOW with stolen BIOS passwords?

CodeMonkeyZ, [13.08.21 22:49]

Mike Lindell's Cyber Symposium has demonstrated that we absolutely have election integrity issues stemming from poor security of the voting machines.

CodeMonkeyZ, [13.08.21 22:53]

If it could happen in one district where the whistle was blown by a concerned official, what could have happened in districts where officials may have worked hand-in-hand with state actors to modify the systems or results?

CodeMonkeyZ, [13.08.21 23:09]

All county officials should forensically image their Dominion machines before Dominion comes to do an "update".

CodeMonkeyZ, [13.08.21 23:20]

Reminder:

We have a zero tolerance policy in the Codemonkeyz Chat room for violence or threats of violence.

If you are discovered to be pushing violence or sowing discord, then you will be banned and your comment history will be deleted.

CodeMonkeyZ, [14.08.21 00:32]

[Poll : If Mesa county was able to turn off the cameras unnoticed for months, how many other counties could potentially have their cameras turned off?]

- None.
- A few.
- Many.
- All of the counties could potentially have had their cameras manipulated.

Arizona Conservatives Take Action, [13.08.21 14:42]

Ted Cruz Derails Democrats' Late-Night Push To Pass Federal Election 'Takeover'Daily

Wire

(<https://www.dailywire.com/news/ted-cruz-derails-democrats-late-night-push-to-pass-federal-election-takeover>)

While we were sleeping, Senator Ted Cruz (R-TX) blocked an attempt by Senate Democrats to permanently subvert our elections. In a furtive pre-dawn Wednesday vote, the dirty Dems 🇺🇸 attempted to push through their election federalization fraud enshrinement bill.

The Daily Wire reports: Senate Majority Leader Chuck Schumer (D-NY) brought the For The People Act, a bill critics say amounts to a federal takeover of elections, to the floor around 3:30 a.m. after the Senate had concluded 15 hours of amendment votes on a \$3.5 trillion budget resolution. In the dead of night, Schumer sought to pass the federal overhaul of elections by unanimous consent, according to the Houston Chronicle (https://www.houstonchronicle.com/politics/texas/article/Ted-Cruz-blocks-Texas-Democrats-voting-rights-16379389.php?utm_medium=referral&utm_campaign=socialflow&utm_source=twitter.com).

Only one objection by a senator was required to stop the process. In a roughly 15-minute back-and-forth, Cruz tanked Schumer's attempt to force the election bill through the Senate.

The most "joyous 'division'"? BIRTH?

<https://gizmodo.com/the-origin-of-joy-divisions-most-famous-album-cover-fi-1686589791>

The Origin of Joy Division's Most Famous Album Cover, Finally Revealed

BySarah Zhang

2/18/15 5:50PM

The cover of Joy Division's *Unknown Pleasures* is famously graced with the radio pulses of a dying star. Its origins, however, have always been unclear. But now, *Scientific American's* Jen Christiansen has followed the rabbit hole to the very end---to an obscure 1970 PhD astronomy thesis and the guy who wrote it.

Joy Division fans and astronomy nerds might already know that album cover depicts radio pulses from the first pulsar ever discovered, CP1919. And the album's designer, Peter Saville, has said the image was copied directly from a plot from *The Cambridge Encyclopaedia of Astronomy*.

Here, however, the trail runs cold. How did the encyclopedia get the image? Who actually created the plot? What did they think of inspiring one of the most famous album covers of all time?

Christiansen embarks on an obsessive hunt, scouring early papers and books about the discovery of pulsars. Eventually, he stumbles upon a clue that leads him to the Cornell's rare book room. And there he finds it, the exact pulsar plot in a 1970 PhD thesis entitled "Radio Observations of the Pulse Profiles and Dispersion Measures of Twelve Pulsars," by Harold D. Craft, Jr. Christiansen also manages to track down Harold D. Craft, who had this to say about the album cover.

It was a complete surprise. In fact, I didn't know anything about it, and a colleague in the space sciences department, who is now a professor of astronomy at Cornell, Jim Cordes, saw me on the street -- he's been a long time friend -- and he said, "oh, by the way, did you know that your image is on the cover of Joy Division?" And, I said no, I had no clue. So I went to the record store and, son of a gun, there it was. So I bought an album, and then there was a poster that I had of it, so I bought one of those too, just for no particular reason, except that it's my image, and I ought to have a copy of it.

The rest of the interview (with audio!) is on *Scientific American's* SA Visual blog, where Craft divulges many more details about how the plot was made. Hipsters can now finally know the true origins of their favorite t-shirt. [Scientific American]

Were I attempting to lead.. I'm not here to cheer on minimum earners.. I'm discussing economics.

It's always the same.. Conservatives bear the duty of defending the freedoms which liberals cherish and don't realize they are forfeiting.. Similarly, I am arguing against a sudden & rash increase in the minimum wage, as it WILL HURT THE LOWEST INCOME HOUSEHOLDS THE MOST!!!

But sure, coddle those with low incomes.. Tell them they're very very very appreciated and deserve more than God's green earth and the opportunity that America has to offer.

>never done an honest day's work

Not sure where you're getting that from.. Not only have I flipped burgers, I've made tacos in a truck, sat in a chair at the pool, put up drywall in probably about 200 houses while simultaneously earning a degree that it turns out I really didn't need to now grind about 10 hours a day at a screen making decent money.. It's not easy anon. I had to do it because I've got 3 kids.

>Many people flip burgers full-time

I just said many.

Bottom line:

Increasing minimum wage causes the cheapest every day items to increase in price first.. higher incomes, higher priced homes, luxuries, etc increase slower.. The result generally makes the poor poorer.

I honestly didn't realize how many people here were in favor of hiking minimum wage, that's traditionally a globalist/democrat/liberal agenda..

Be wary folks, you've got me wrong.. maybe when it comes up again, listen to the voices who oppose it and hear out their reasoning... it's a short term boost for low earners, long term it shifts income towards the elite.. inflation is bad for the lower and middle class... the elites can handle infinite inflation because they have a lot more real assets (ie not cash or low-value & rapidly depreciating assets)

That needs to be addressed by finding other opportunity and not getting sucked into those low paying positions.. if they can find someone else, why pay you more.. You could do better.

To some extent I agree, but the elites want increased minimum wage.. .FUCKING HELLO!! They're the ones pushing it.

Sometimes I wake up with a nightmare where it flashes through my brain that the entire Q operation was set up by the Deep State. Because they knew conservatives tended to be reasonable and if you let them believe help was coming they'd Stand Down.

Then I wake up in such a dreaded panic I say a prayer and go back to trusting the plan.

Because at this point it's about the only way.

If not that boys, then it's about time we all took up arms across the country!

So I'll stay with trusting the plan basically because I trust God over all!

But what are you girls n guys think?

Quakes

This has been heavy for 24+ hrs.

It is occurring on the edge of a plate that looks as if something dragged across it. Yes, it looks like penis.

Large deposits of crustal things? (Gold, gems? DUMBs)?

The Antarctic plate is going under and splitting the African plate.

Welcome To Q Research General

We are researchers who deal in open-source information, reasoned argument, and dank memes. We do battle in the sphere of ideas and ideas only. We neither need nor condone the use of force in our work here.

"We hold these truths to be self-evident: that all men are created equal; that they are endowed by their Creator with certain unalienable rights; that among these are life, liberty, and the pursuit of happiness."

Canada to require COVID vaccines for air, train and ship travelers

The Canadian government announced Friday that commercial airline travelers will soon need to be vaccinated against the coronavirus.

The sweeping mandate, which also includes passengers on cruise ships and interprovincial trains, will go into effect “[a]s soon as possible in the fall and no later than the end of October,” Transport Minister Omar Alghabra said in a statement.

Alghabra added that those working in “the federally regulated air, rail, and marine transportation sectors” would face the same requirement, while other federal government employees would need to be vaccinated as early as the end of September.

The government also said it “expects” so-called Crown corporations --- like the Bank of Canada, the Canadian Broadcasting Corporation and Canada Post — to mandate vaccinations for their employees and promised to “work with these employers to ensure this result.”

Canada’s federal government is the country’s largest employer, with more than 1.2 million workers.

“After months and months of deploying these vaccines literally into millions of Canadian arms, we see how effective they are. We also see what other workplaces and other public service agencies around the world have done,” Intergovernmental Affairs Minister Dominic LeBlanc told reporters. “It is very much a continuation of our government’s efforts to do whatever it takes for as long as it takes to protect the health and safety of Canadians.”

Canada has one of the highest vaccination rates in the world, with more than 81 percent of its population aged 12 and up having received at least one dose and 71.5 percent considered fully vaccinated, according to data from CTV News.

However, despite the success of Canada’s vaccine drive, Alghabra said there was room for improvement.

“We need to reach as many Canadians as we possibly can,” the minister said. Cases are starting to creep up again in what Canada’s top health official dubbed a fourth wave this week.

Canada opened its border to fully vaccinated Americans Monday, 17 months after the frontier was shut to non-essential travel in the early days of the COVID-19 pandemic, and planned to reopen to visitors from around the world Sept. 7

By contrast, the Biden administration has said it will keep its side of the US-Canada border closed until at least Aug. 21.

Air Canada, the country's largest airline, called the vaccine mandate "a welcome step forward in the evolving measures to protect the health and safety of airline employees, customers and all Canadians."

Broward County Mandates Vaccines For Poll Workers

The Most Important Story You Will Read Today

Broward County Supervisor of Elections Joe Scott said in a letter to potential 2021 special election poll workers that they must show proof of vaccination. Patriots are challenging Joe Scott's authority to unilaterally make such a decision. Scott told people in the letter "Please bring evidence of your inoculation against COVID-19 (two doses of the Moderna or Pfizer vaccines, or one dose of the Johnson & Johnson vaccine), with

you to your upcoming training class.” Here is the tyrannical letter obtained by patriot philanthropist Chris Nelson:

Pfizer-BioNTech and Moderna Poised to Make Billions on COVID-19 Boosters

Moderna and the Pfizer-BioNTech alliance could reap billions from COVID-19 booster shots in the coming years, in what analysts and investors say could be a market comparable to the \$6 billion in annual sales for flu vaccines.

Pfizer, its German partner BioNTech, and Moderna have together locked in over \$60 billion in sales of their respective COVID-19 vaccines through 2022, with the agreements covering initial doses and booster shots, according to Reuters.

Analysts cited by the outlet predict revenues of over \$6.6 billion for the Pfizer-BioNTech alliance and \$7.6 billion for Moderna, chiefly from booster shots. Over a longer-term horizon, they predict the market will eventually settle at around \$5 billion or more in annual revenues as rival drugmakers enter the space.

Moderna did not immediately respond to a request for comment on booster shot sales projections, while a Pfizer spokesperson said the only forecasts the company is providing are 2021 projections for \$33.5 billion in COVID-19 vaccine revenues.

Moderna President Stephen Hoge said in an interview last week that it is unclear what the market forces driving COVID-19 vaccine sales will be going forward, adding that, "at some point, this will become a more traditional market---we'll look at what are the populations at risk, what value are we creating, and what are the number of products that serve that value. That will ultimately impact price."

Pfizer executives said during the company's second-quarter earnings call that they believe a third dose will be necessary 6 to 8 months after vaccination, and at regular intervals thereafter.

The vaccine makers have said evidence of waning antibody levels in fully vaccinated people after six months, along with an increasing rate of breakthrough infections in regions affected by the Delta variant, support the need for boosters.

It comes as U.S. regulators on Thursday authorized Pfizer-BioNTech's and Moderna's COVID-19 vaccine booster shots for certain vulnerable and immunocompromised people. The Food and Drug Administration's (FDA) approval came in the form of an update to the existing emergency use authorizations for the two mRNA vaccines. Several other countries, including Israel and France, have similar recommendations on booster shots.

The FDA's move was followed by a Friday decision by a key medical advisory panel to the Centers for Disease Control and Prevention (CDC), which unanimously voted to recommend the boosters to immunocompromised Americans. The approval of the Advisory Committee on Immunization Practices clears the way for a final nod by CDC, expected later Friday, which would allow for near-immediate rollout of the boosters.

WHO to Set up New Group to Trace Virus Origins

GENEVA---The World Health Organization (WHO) said on Friday it was setting up a new group to trace the origins of the coronavirus, seeking to end what it called “political
